## **1. Aims and rationale**

- To provide a caring environment in which children and young people feel safe, secure, valued and respected.
- To instil confidence so that pupils can trust adults and know how to approach staff if they are in difficulty.
- To raise awareness among all staff, both teaching and non-teaching, of the need to safeguard children through identification and prompt reporting of all possible cases of abuse.
- To ensure that rigorous systems of identification, reporting and monitoring are in place to protect all children from harm.
- To establish clear and effective channels of communication between staff, and to develop effective working relationships with all other agencies involved in safeguarding children including Children Social Care services, the police and health services.
- To ensure that all adults have appropriate checks and relevant safeguarding training completed before working with children.

This policy has been developed in accordance with the principles established by the Children Act, 1989, the Education Act, 2002 and the statutory guidance: Keeping Children Safe in Education, (KSCIE) 2021.

At Deptford Green School we believe that the needs of the child are paramount. All children deserve the opportunity to achieve their full potential; they have the right to be protected from harm and exploitation whatever their race, religion, first language or ethnicity, gender or sexuality, age, health or disability, political or immigration status.

All staff accept their fundamental responsibility to keep pupils safe, promoting children's social, physical, emotional and moral development. All staff are trained to identify signs of abuse, and work to identify, assess, and support those children who are suffering harm. Staff will help to equip children with the skills needed to keep them safe.

There are three main elements to the child protection and safeguarding policy:

**PREVENTION** through the teaching and pastoral support offered to pupils and the creation and maintenance of a whole school protective ethos.

**PROTECTION** by following agreed procedures for identifying, monitoring and reporting cases, or suspected cases, of abuse; protecting children from unsuitable people.

**SUPPORT** to victims of abuse and to staff in identifying signs and symptoms of abuse. To also support young people who are perpetrators of abuse to ensure they also get the support they need.

## **2. Legislation and statutory guidance**

This policy is based on the Department for Education's statutory guidance Keeping Children Safe in Education (2021) and Working Together to Safeguard Children (2018), and the Governance Handbook. We comply with this guidance and the arrangements agreed and published by our 3 local safeguarding partners.

This policy is also based on the following legislation:

- Section 175 of the Education Act 2002, which places a duty on schools and local authorities to safeguard and promote the welfare of pupils
- The School Staffing (England) Regulations 2009, which set out what must be recorded on the single central record and the requirement for at least one person conducting an interview to be trained in safer recruitment techniques
- The Children Act 1989 (and 2004 amendment), which provides a framework for the care and protection of children
- Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the Serious Crime Act 2015, which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18
- Statutory guidance on FGM, which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM
- The Rehabilitation of Offenders Act 1974, which outlines when people with criminal convictions can work with children
- Schedule 4 of the Safeguarding Vulnerable Groups Act 2006, which defines what 'regulated activity' is in relation to children
- Statutory guidance on the Prevent duty, which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism

### **3. Definitions**

**Safeguarding and promoting the welfare of children** means:

- Protecting children from maltreatment
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

**Child protection** is part of this definition and refers to activities undertaken to prevent children suffering, or being likely to suffer, significant harm.

**Abuse** is a form of maltreatment of a child, and may involve inflicting harm or failing to act to prevent harm. Appendix 1 explains the different types of abuse.

**Neglect** is a form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Appendix 1 defines neglect in more detail.

**Sharing of nudes and semi-nudes** (also known as sexting or youth produced sexual imagery) is where children share nude or semi-nude images, videos or live streams.

**Children** includes everyone under the age of 18.

The following 3 **safeguarding partners** are identified in Keeping Children Safe in Education (and defined in the Children Act 2004, as amended by chapter 2 of the Children and Social Work Act 2017). They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs:

- The local authority (LA)
- A clinical commissioning group for an area within the LA
- The chief officer of police for a police area in the LA area

#### **4. Equality statement**

Some children have an increased risk of abuse, and additional barriers can exist for some children with respect to recognising or disclosing it. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

- Have special educational needs (SEN) or disabilities or health conditions (see section 10)
- Are young carers
- May experience discrimination due to their race, ethnicity, religion, gender identification or sexuality
- Have English as an additional language
- Are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence
- Are at risk of FGM, sexual exploitation, forced marriage, or radicalisation
- Are asylum seekers
- Are at risk due to either their own or a family member's mental health needs
- Are looked after or previously looked after (see section 12)
- Are missing from education
- Whose parent/carer has expressed an intention to remove them from school to be home educated
- Who have health conditions
- Have mental health needs
- Have a family member in prison
- Are at risk of honour based abuse
- Are persistently absent from school

## 5. Roles and responsibilities

Safeguarding and child protection is **everyone's** responsibility. This policy applies to all staff, volunteers and governors in the school and is consistent with the procedures of the 3 safeguarding partners. Our policy and procedures also apply to extended school and off-site activities.

Designated Safeguarding Leads	Deputy Designated Safeguarding Leads	Designated Governor for Safeguarding
<p>To attend safeguarding Level 3 refresher training every two years. (Minimum requirement).</p> <p>To access refresher Child Protection training every year.</p> <p>Deliver annual staff training according to the needs of the team and/or in response to current practices.</p> <p>Liaise with class teachers, learning mentors and other relevant staff to provide support for the child in school.</p> <p>Liaise with agencies that support the child such as social care, Child and Adolescent Mental Health Services (CAMHS), Education Welfare Service and Educational Psychology service.</p> <p>Support or lead 'team around the family' (TAF) meetings and attend case conference reviews/ core group meetings.</p> <p>Ensure the child protection policy is reviewed, updated and enforced every year.</p> <p>To meet weekly with the Deputy/Assistant Heads to discuss ongoing CP concerns.</p> <p>To meet half-termly with designated governor to discuss safeguarding.</p> <p>Ensure that relevant paperwork is copied and filed before being transferred to a pupil's new school.</p>	<p>To attend safeguarding Level 3 refresher training every two years.</p> <p>To access refresher Child Protection training every year.</p> <p>During initial meeting with new pupils – make parents aware of safeguarding policy.</p> <p>Monitor children on CP register and all 'live' concerns.</p> <p>Receive current information for children on CP register weekly.</p> <p>Lead/ attend TAF meetings as necessary.</p> <p>To maintain good relations with the school community to ensure effective support and access to support.</p>	<p>To access refresher Child Protection training every year.</p> <p>Report to the governing body the number of cases (without names or details) of child protection issues in the school.</p> <p>Ensure safeguarding policy is reviewed annually.</p> <p>Ensure they read the whole of Keeping Children Safe in Education in it's entirety every year to keep up to date with the most recent statutory guidance.</p> <p>To oversee procedures relating to allegations made against the Head Teacher.</p>

Promote educational outcomes by sharing about welfare, safeguarding and child protection issues information regarding vulnerable children with teachers and leadership staff.		
---	--	--

## 5.1 All staff

All staff will read and understand part 1 and annex B of the Department for Education’s statutory safeguarding guidance, [Keeping Children Safe in Education](#) 2021 and review this guidance at least annually.

All staff will sign a declaration at the beginning of each academic year to say that they have reviewed the guidance.

All staff will be aware of:

- › Our systems which support safeguarding, including this child protection and safeguarding policy, the staff /code of conduct], the role and identity of the designated safeguarding lead (DSL) and [deputy/deputies], the behaviour policy, the online safety policy and the safeguarding response to children who go missing from education
- › The early help process (sometimes known as the common assessment framework) and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment
- › The process for making referrals to local authority children’s social care and for statutory assessments that may follow a referral, including the role they might be expected to play
- › What to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals
- › The signs of different types of abuse and neglect, as well as specific safeguarding issues, such as peer-on-peer abuse, child sexual exploitation (CSE), child criminal exploitation (CCE), indicators of being at risk from or involved with serious violent crime, FGM and radicalisation
- › The importance of reassuring victims that they are being taken seriously and that they will be supported and kept safe

## 5.2 The designated safeguarding lead (DSL)

The DSL is a member of the senior leadership team. Our DSL is Emily Stanghon (Assistant Headteacher). The DSL takes lead responsibility for child protection and wider safeguarding in the school.

During term time, the DSL will be available during school hours for staff to discuss any safeguarding concerns.

Out of school hours the DSL can be emailed at [estanghon@deptfordgreen.co.uk](mailto:estanghon@deptfordgreen.co.uk)

Called on 0208 691 3236 Ext 280. All incidents on CPOMs will be responded to immediately by the DSL or Deputy. One of which is always onsite.

When the DSL is absent, the deputies] – Amy Coffey and Lynn Ascott– will act as cover.

If the DSL and deputies are not available, there will always be a named Senior Leader who will act as cover (for example, during out-of-hours/out-of-term activities).

The DSL will be given the time, funding, training, resources and support to:

- Provide advice and support to other staff on child welfare and child protection matters
- Take part in strategy discussions and inter-agency meetings and/or support other staff to do so
- Contribute to the assessment of children
- Refer suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly

The DSL will also keep the headteacher informed of any issues, and liaise with local authority case managers and designated officers for child protection concerns as appropriate.

The full responsibilities of the DSL and deputies are set out in their job description.

### **5.3 The governing board**

The governing board will:

- Facilitate a whole-school approach to safeguarding, ensuring that safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development
- Evaluate and approve this policy at each review, ensuring it complies with the law, and hold the headteacher to account for its implementation
- Appoint a link governor to monitor the effectiveness of this policy in conjunction with the full governing board. This is always a different person from the DSL. At Deptford Green School the link Governor is Mr Sid Hughes.

The chair of governors will act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, where appropriate (see appendix 3).

All governors will read Keeping Children Safe in Education 2021 part 1 and annex B.

### **5.4 The headteacher**

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that staff (including temporary staff) and volunteers:
  - Are informed of our systems which support safeguarding, including this policy, as part of their induction
  - Understand and follow the procedures included in this policy, particularly those concerning referrals of cases of suspected abuse and neglect
- Communicating this policy to parents/carers when their child joins the school and via the school website
- Ensuring that the DSL has appropriate time, funding, training and resources, and that there is always adequate cover if the DSL is absent
- Ensuring that all staff undertake appropriate safeguarding and child protection training, and updating the content of the training regularly

- › Acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3)

## **6. Confidentiality**

All staff will understand that child protection issues warrant a high level of confidentiality, not only out of respect for the child and staff involved but also to ensure that being released into the public domain does not compromise evidence.

Staff should only discuss concerns with the designated person, headteacher or chair of governors (depending on who is the subject of the concern). That person will then decide who else needs to have the information and they will disseminate it on a 'need-to-know' basis. Child protection information will be stored and handled in line with **General Data Protection Regulation (GDPR), 2018** principles. Information is:

Records of concerns, incidents and other written information will be stored in a locked facility and any electronic information will be password protected and only made available to relevant individuals. The following principles will be applied when sharing information:

- › Timely information sharing is essential to effective safeguarding
- › Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children
- › The Data Protection Act (DPA) 2018 and UK GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe
- › If staff need to share 'special category personal data', the DPA 2018 contains 'safeguarding of children and individuals at risk' as a processing condition that allows practitioners to share information without consent if it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk
- › Staff should never promise a child that they will not tell anyone about a report of abuse, as this may not be in the child's best interests
- › The government's [information sharing advice for safeguarding practitioners](#) includes 7 'golden rules' for sharing information, and will support staff who have to make decisions about sharing information
- › If staff are in any doubt about sharing information, they should speak to the designated safeguarding lead (or deputy)

Every effort should be made to prevent unauthorised access and sensitive information should not be stored on laptop computers, which, by the nature of their portability, could be lost or stolen. If it is necessary to store child protection information on portable media, such as a CD or flash drive, these items should also be kept in locked storage. Child protection information will be stored separately from the child's school file and the school file will be 'tagged' to indicate that separate information is held.

Child protection records are normally exempt from the disclosure provisions of **GDPR**, which means that children and parents do not have an automatic right to see them. If any member of staff receives a request from a child or parent to see child protection records, they should refer the request to the head teacher.

GDPR principles do not prevent school staff from sharing information with relevant agencies, where that information may help to protect a child. When information is shared, the reason for

doing so as well as the reasons why consent may not have been sought, will be clearly documented within the child protection records.

When a child leaves the school their Child Protection files will be copied with the copies archived and stored securely for 7 years and the original securely packaged and transferred by hand to the new school. A signed document acknowledging receipt of the record will be requested from the new school/provision.

## **7. Child Protection procedures and guidelines**

At Deptford Green School, we fully recognise our responsibilities for child protection and strive to achieve an environment where children feel secure, supported and valued within and beyond the school gate.

We recognise that some children are the victims of neglect and/or physical, sexual or emotional abuse. Staff at school, by virtue of their day-to-day contact with and knowledge of the children in their care, are well placed to identify such abuse and to offer support to children in need. All child protection concerns and referrals will be handled sensitively, professionally and in ways which support the needs of the child.

Please refer to appendix 1 to read about the different categories of abuse and appendix 4 to read about specific safeguarding issues and the procedures which staff should follow in terms of recognising, reporting and monitoring any type of abuse. Staff, volunteers and governors must follow the procedures set out below in the event of a safeguarding issue.

Please note – in this and subsequent sections, you should take any references to the DSL to mean “the DSL (or deputy DSL)”.

### **What is Child Protection?**

Child Protection is one very important aspect of safeguarding. It refers to the activity which is undertaken to protect specific children who are suffering, or at risk of suffering, significant harm. Safeguarding, in addition to child protection, encompasses issues such as pupil health and safety, bullying/cyber-bullying, appropriate medical provision. These areas have specific policies and guidance which should be read in conjunction with this document.

### **What is significant harm?**

The Children’s Act 1989 introduced the concept of significant harm as the threshold that justifies compulsory intervention by statutory agencies in family life in the best interests of children. There are no absolute criteria on which to rely when judging what constitutes significant harm. Sometimes it might be a single traumatic event but more often it is a compilation of significant events which damage the child’s physical and psychological development. Decisions about significant harm are complex and require discussion with the statutory agencies.

### **Responsibilities**

The responsibility for child safeguarding falls on everybody who is employed at Deptford Green School. All adults who work at Deptford Green School are expected to support the Child Protection and Safeguarding Policy, with overall responsibility falling on the Headteacher. All staff, including volunteers have a statutory obligation to report to the DSL if there is suspicion of abuse/neglect of a child or if a child discloses abuse or allegations of abuse.

## **Recognising abuse**

To ensure that our children are protected from harm, we need to understand what types of behaviour constitute abuse and neglect.

Abuse and neglect are forms of maltreatment. Somebody may abuse or neglect a child by inflicting harm, for example by hitting them, or by failing to act to prevent harm, for example by leaving a small child home alone, or leaving knives or matches within reach of an unattended toddler.

There are four categories of abuse: physical abuse, emotional abuse, sexual abuse and neglect.

### **Physical abuse**

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces illness in a child (this used to be called Munchausen's Syndrome by Proxy, but is now more usually referred to as fabricated or induced illness).

### **Emotional abuse**

Emotional abuse is the persistent emotional maltreatment of a child, such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate or valued only for meeting the needs of another person. It may feature age – or developmentally-inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying, causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

### **Sexual abuse**

Sexual abuse involves forcing or enticing a child person to take part in sexual activities, including prostitution, whether or not the child is aware of what is happening. The activities may involve physical contact, including penetrative and non-penetrative acts. They may include non-contact activities, such as involving children in looking at, or in the production of, pornographic material or watching sexual activities, or encouraging children to behave in sexually inappropriate ways.

### **Neglect**

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's mental and/or physical health or development. Neglect may occur during pregnancy as a result of maternal substance misuse. Once a child is born, neglect may involve a parent or carer failing to provide adequate food and clothing or shelter, including exclusion from home or abandonment; failing to protect a child from physical and emotional harm or danger; failure to ensure adequate supervision, including the use of inadequate care-takers; or the failure to ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

[\(Definitions taken from Working Together to Safeguard Children\)](#)

### **Bullying**

While bullying between children is not a separate category of abuse and neglect, it is a very serious issue that can cause considerable anxiety and distress. At its most serious level, bullying is thought to result in up to 12 child suicides each year.

All incidences of bullying should be reported and will be managed through our anti-bullying procedures. All pupils and parents receive a copy of the anti-bullying procedures on joining the school and the subject of bullying is addressed at regular intervals in the personal, social and health education (PSHE) curriculum. In the event that there is a possibility the bullying may be linked to abuse/, the Headteacher and the DSL will consider implementing child protection procedures.

### **Indicators of abuse and what you might see**

Physical signs define some types of abuse, for example, bruising, bleeding or broken bones resulting from physical or sexual abuse, or injuries sustained while a child has been inadequately supervised. The identification of physical signs is complicated, as children may go to great lengths to hide injuries, often because they are ashamed or embarrassed, or their abuser has threatened further violence or trauma if they 'tell'. It is also quite difficult for anyone without medical training to categorise injuries into accidental or deliberate with any degree of certainty. For these reasons it is vital that staff are also aware of the range of behavioural indicators of abuse and report any concerns to the designated person.

It is the responsibility of all staff members, volunteers and contractors to *report* their concerns. It is *not their responsibility to investigate* or decide whether a child has been harmed or abused.

A child who is being harmed, abused and/or neglected may:

- have bruises, bleeding, burns, fractures or other injuries
- show signs of pain or discomfort
- keep arms and legs covered, even in warm weather
- be concerned about changing for PE or swimming
- look unkempt and uncared for
- change their eating habits
- have difficulty in making or sustaining friendships
- appear fearful
- be reckless with regard to their own or other's safety
- self-harm
- frequently miss school or arrive late
- show signs of not wanting to go home
- display a change in behaviour – from quiet to aggressive, or happy-go-lucky to withdrawn
- challenge authority
- become disinterested in their school work
- be constantly tired or preoccupied
- be wary of physical contact
- be involved in, or particularly knowledgeable about drugs or alcohol
- display sexual knowledge or behaviour beyond that normally expected for their age.

Individual indicators will rarely, in isolation, provide conclusive evidence of abuse. They should be viewed as part of a jigsaw, and each small piece of information will help the DSL to decide how to proceed. It is very important that all staff, volunteers and/or contractors report *all* concerns even if there is no 'absolute proof' that the child is at risk. All staff at Deptford Green have been trained to report all concerns no matter how small they may think they are, they are all trained on reporting concerns on CPOMS immediately.

## **7.1 If a child is suffering or likely to suffer harm, or in immediate danger**

A referral must be made to children's social care and/or the police **immediately** if you believe a child is suffering or likely to suffer from harm, or is in immediate danger. **Anyone can make a referral.**

Tell the DSL by recording the incident on CPOMS as soon as possible if you make a referral directly.

Lewisham MASH team - <https://lewisham.gov.uk/myservices/socialcare/children/keeping-children-safe/multi-agency-safeguarding-hub/mash-request-form>

<https://www.gov.uk/report-child-abuse-to-local-council>

## 7.2 If a child makes a disclosure to you

If a child discloses a safeguarding issue to you, you should:

- Listen to and believe them. Allow them time to talk freely and do not ask leading questions
- Stay calm and do not show that you are shocked or upset
- Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner
- Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret
- Write up your conversation as soon as possible in the child's own words on CPOMS. Stick to the facts, and do not put your own judgement on it. This must be completed on CPOMS the same day and within 24 hours.
- Alternatively, if appropriate, make a referral to children's social care and/or the police directly (see 7.1), and tell the DSL as soon as possible that you have done so. Aside from these people, do not disclose the information to anyone else unless told to do so by a relevant authority involved in the safeguarding process

### **If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer from harm, or is in immediate danger)**

Figure 1 below, before section 7.7, illustrates the procedure to follow if you have any concerns about a child's welfare.

Where possible, speak to the DSL first to agree a course of action.

## 7.3 Team Around the Family (TAF)

Deptford Green School follows Lewisham's multi-agency threshold guidance document which informs agencies in Lewisham on how to assess and identify a child's level of need and how to access the right level support.

The threshold guidance is divided into four levels:

- Tier 1 - No Additional Needs
- Tier 2 - Early Help/ Early Support
- Tier 3 - Children with Complex Multiple Needs
- Tier 4 - Children in Acute Need

The thresholds for intervention in Lewisham are based upon the London Continuum of Need. The London Continuum of Need provides descriptors for four levels of need. When there are children with additional needs, who may be vulnerable and showing early signs of abuse and/or neglect; their needs are not clear, this is the threshold for a multi-agency early help assessment to begin – Tier 2/Level 2, Early Help/Early Support.

These are children who require a lead professional for a co-ordinated approach to the provision of additional services such as family support services, parenting programmes and children's centres. These will be provided within universal or targeted services provision and do not include services from Children's Social Care and will normally be facilitated by arranging a TAF meeting with the relevant professionals.

Parents/carers will always be contacted to discuss our concerns prior to making a decision to hold a TAF and their consent will be sought. However, if consent is not given and we maintain that there remain unmet needs of the child and there are safeguarding concerns of any nature, a TAF may still be held without the parent/carer consent.

During the TAF, an Early Help Assessment (EHA) will be made and this will enable us to make clear decisions about any help/support that may be needed and the next steps that should be taken. As part of the TAF process, the EHA will be revisited in six-weekly cycles as a very minimum, although if the needs change, this may happen sooner. At each meeting, a decision will be made as to the current needs for the child/family and how these are best met, including making decisions whether more intervention is needed or whether the current support can be stepped down.

#### **7.4 Reporting directly to child protection agencies**

Referrals to Children's Social Care are only made for children with needs at Level 3 or 4 of the Continuum of Need. This is determined where children are identified as requiring specialist services in order to achieve or maintain a satisfactory level of health or development or to prevent significant impairment of their mental and/or physical health and development and/or who are disabled. They may require longer term intervention from specialist services. In some cases these children's needs may be secondary to the adults needs. This is the threshold for an assessment led by children's social care under Section 17, Children Act 1989 although the assessments and services required may come from a range of provision outside of children's social care.

Staff with concerns should follow the reporting procedures outlined in this policy.

However, they may also share information directly with children's social care, police or the NSPCC if:

- the situation is an emergency and the DSL/Deputy DSL/ Headteacher or the Chair of Governors (for allegations against the Headteacher) are all unavailable
- they are convinced that a direct report is the only way to ensure the child's safety.

As advised in KCSIE 2021 the DSL (including any deputies) should liaise with the three safeguarding partners in line with [Working Together to Safeguard Children](#) and [NSPCC – When to call the Police](#)

#### **7.5 Making a MASH request**

If, as a professional, staff have safeguarding concerns or are requesting additional targeted early help, they can [use the online MASH request form](#) after reading the below information.

Please note that residents and other members of the public can still make referrals in person or over the phone.

All requests that come through the MASH will be triaged by the multi-agency team and staff may be contacted by a professional representing the school to discuss the request.

### **Before staff make a request**

- The following information will help to determine if it is necessary to make a MASH request, and which part of the MASH request form to use:
- Lewisham's Threshold Guidance will help to assess the level of support needed or risks present. **Professionals should refer to this guidance before making a MASH request. This, along with some brief guidance, can be found on the MASH webpage and the LSCP website, links below.**
- If staff believe a child and their family need some additional support this should be **discussed with the family first** and agree who is best placed to provide that support. An Early Help Assessment can help to get a full picture of the family's situation and plan how to meet that need.
- If it is believed a child or family has needs at the targeted level, which are not being met by services currently involved with the family, the form can be completed to **request help and support** from the MASH.
- If professional working with a child requires supporting information from Children's Social Care (e.g. CAFCASS, probation, housing conducting statutory safeguarding checks, assessments), the form can also be completed to **request supporting information**.
- If there is any worry that a child is at risk of significant harm through abuse or neglect, staff should call the MASH immediately on 020 8314 6660 to discuss their concerns and then use the form to **request child protection** from the MASH.

### **MASH / Early Help Consultation Service**

To help professionals make the most informed decisions the MASH and Early Help Team will provide a professionals' advice line. This will be available for consultation from 9am – 5pm.

Where the child may need help and protection they will be given advice and guidance about making a referral, including how to involve parents. Professionals will also receive guidance on the need for parental consent/ recorded clarification needed as to why consent was overridden.

During consultation professionals, should:

- Be clear about their concern and what is needed from the consultation
- Clearly identify what their organisation has already done about the concern and the impact of this
- Seek clarification where there are any uncertainties about what is involved
- In the case of the outcome of consultation being to make a referral, discuss the appropriateness of not seeking, or overriding parental consent.

The Consultation service aims to:

- Offer quick access via the telephone to Children's Safeguarding and Social Care advice
- Provide advice on Children's Safeguarding and Social Care threshold decision making i.e. S17 or S47 of the CA 1989
- Improve information sharing about universal and target services providing early help
- Allow professionals the opportunity to talk through situations (hypothetically if necessary) of concern to help determine an appropriate response, without the need for formal referral. This advice will be recorded to provide an audit trail.

### **How the Consultation Service works?**

- Consultation will be offered by MASH Social worker/ Early help team and their professional partners for all professionals seeking advice about children who they are concerned about
- To undertake a consultation professionals should telephone the MASH/ Early Help team on 02083146660. Professionals have the option to speak with their own service colleagues co-located in the MASH; who in turn will always be able to seek advice and guidance from social workers
- Where professionals simply seek advice and or guidance on hypothetical cases they feel stuck with, the MASH or Early help staff members who provides the consultation will send an email as a follow up action and with the advice recorded. It is expected that the contacting professional follow the record keeping and information guidelines for their own agency, to record they have held a consultation. With hypothetical queries the MASH/ Early Help team will not contact the family but do expect professionals to discuss any concerns they have with the individuals who have parental responsibility for the child
- Professionals and their agencies are not obliged to follow the advice offered, however staff within the MASH/ Early Help team will escalate concerns in line with the London Safeguarding Children Procedures where they feel safeguarding activity is required and advice is not followed
- If following consultation more information becomes known or the situation changes, a professional can seek further clarity by calling the consultation line at any time.
- Alternatively, if they feel that the response they have received does not meet the needs of the child/family or leaves a child at risk of harm, they can still make a referral in the usual way or escalate their concerns through their organisations safeguarding process.

### **7.6 Using the Local Children Safeguarding Board (LSCB) continuum of need guidance**

The Lewisham Safeguarding Children Board (LSCB) has developed a document following consultation with partners in 2018, for professionals to determine the levels of need when making a judgement and assessment of the child and their family. This document provides advice and guidance regarding the level of support and intervention children and their families may require.

Before making a referral to the MASH professionals should consider if the needs identified can be met within their own agency, or by other professionals already involved with the family. This is usually relevant for children who have universal or additional needs, this is often referred to as Level 1 or 2 support as demonstrated in the LSCB Levels / Continuum of Need Document.

Professionals should seek to discuss any concerns they have with the parents/carers who have parental responsibility, are caring for the child by way of private fostering arrangements (or under a statutory regulation) and inform them that they are making a referral to the MASH when new safeguarding concerns arise or no change is affected within existing plans. This should only be done where such discussions will not place a child at increased risk of significant harm or cause any significant delay.

The Continuum of Need Guidance Document can be accessed here, pages 11-14:  
<https://www.safeguardinglewisham.org.uk/lscp/lscp/professionals/early-help-mash>

### **Identifying a child in need of help/ support or protection**

A referral to the MASH should be made when a child or family needs support identified require Level 3 or 4 support in the Thresholds Guidance. Additional information including the link to the online request form can be found on the Lewisham MASH Webpage:

[www.lewisham.gov.uk/MASH](http://www.lewisham.gov.uk/MASH)

Contact:

Multi-agency Safeguarding Hub (MASH) Tel: 020 8314 6660

Email: [mashagency@lewisham.gov.uk](mailto:mashagency@lewisham.gov.uk); [mashgcsx@lewisham.gcsx.gov.uk](mailto:mashgcsx@lewisham.gcsx.gov.uk)

Opening hours: Monday–Friday 9am–5pm.

If you have concerns about the welfare of a child outside these hours, please contact the emergency duty team on 020 8314 6000 and ask to speak to the out-of-hours duty social worker

### **7.7 Referrals**

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so.

If you make a referral directly (see section 7.1), you must tell the DSL as soon as possible.

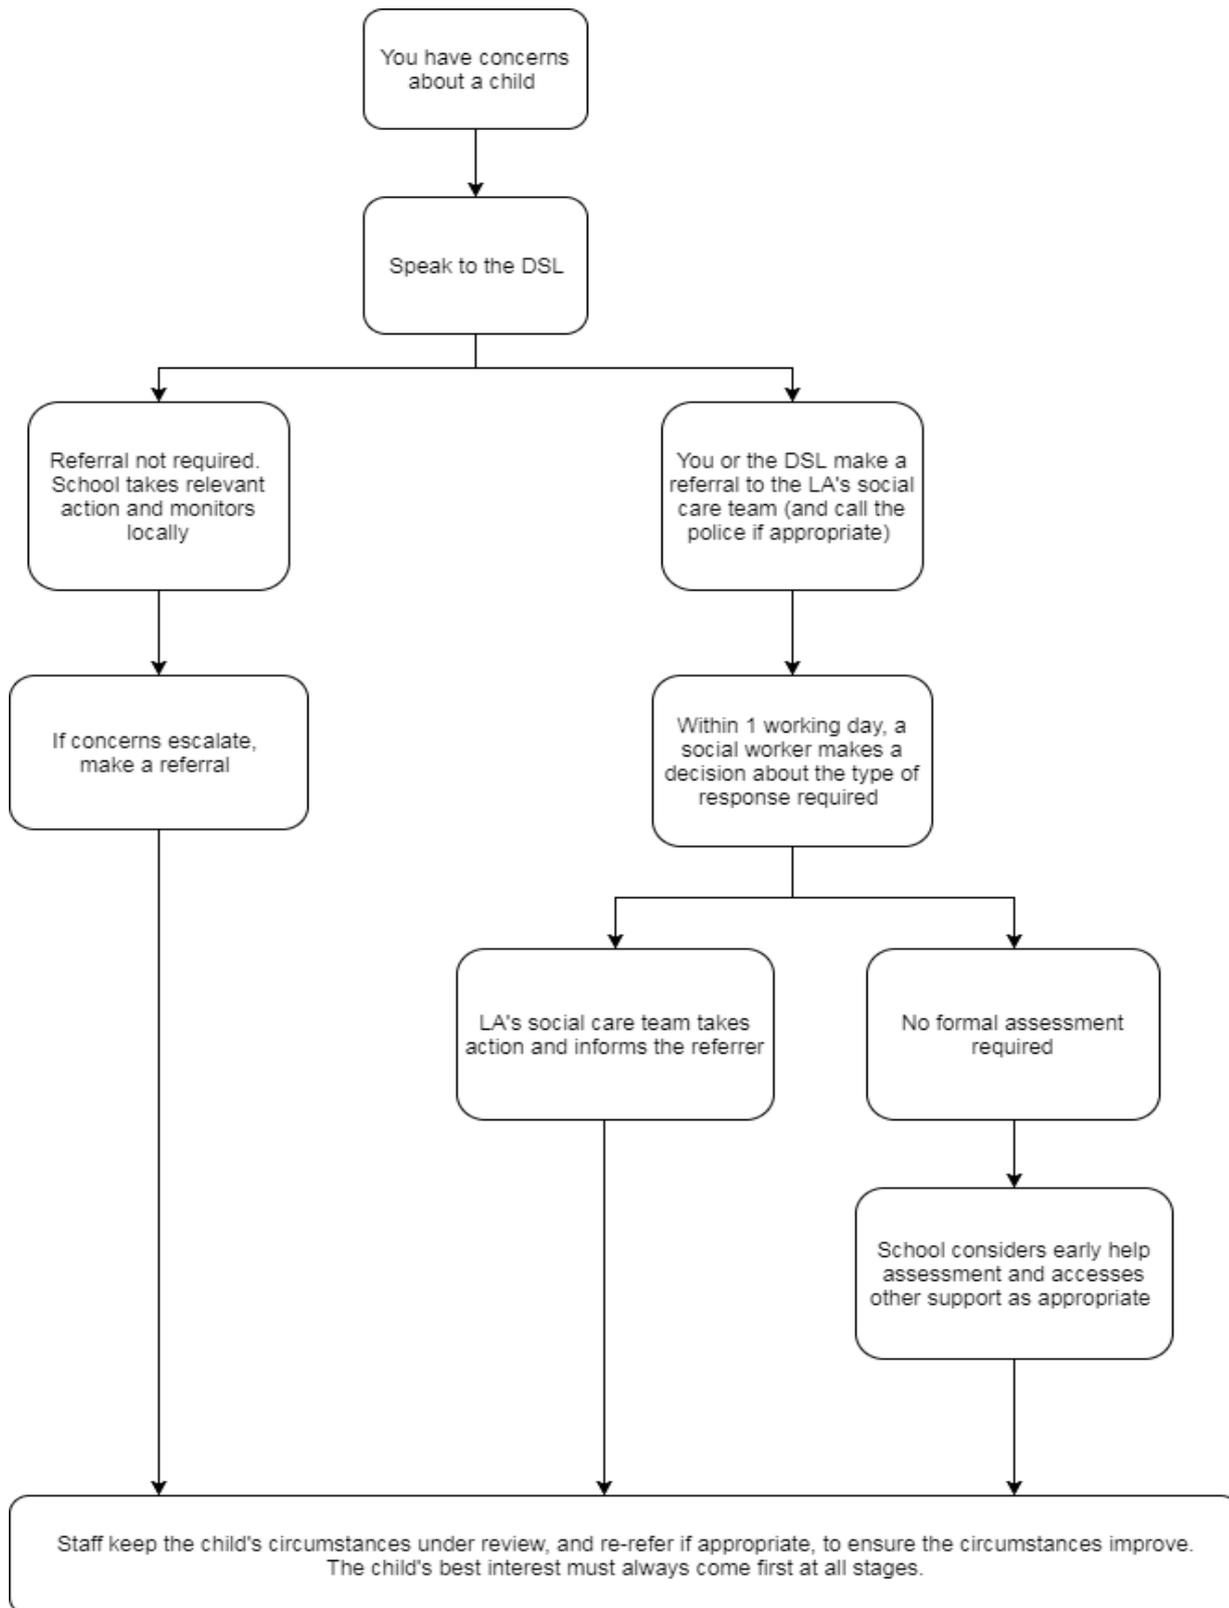

Safeguarding referrals should be made to Lewisham Multi Agency Safeguarding Hub (**MASH**) via a MASH request form. Prior to any written MASH referral being sent as a referral to social care, there should be a verbal consultation with the MASH social worker or manager, by calling the duty desk on 020 8314 6660, to ensure that making a referral is an appropriate action. The parent/carer will normally be contacted to obtain their consent before a referral is made.

The local authority will make a decision within 1 working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

If the child's situation does not seem to be improving after the referral, the DSL or person who made the referral must follow local escalation procedures to ensure their concerns have been addressed and that the child's situation improves.

**Figure 1: procedure if you have concerns about a child's welfare (as opposed to believing a child is suffering or likely to suffer from harm, or in immediate danger)**

(Note – if the DSL is unavailable, this should not delay action. See section 7.4 for what to do.)

### 7.8 Female genital mutilation (FGM)

At Deptford Green School we believe that all our pupils should be kept safe from harm. FGM affects girls particularly from north African countries, including Egypt, Sudan, Somalia and Sierra Leone.

It is illegal in the United Kingdom to allow girls to undergo female genital mutilation either in this country or abroad. People guilty of allowing FGM to take place are punished by fines and up to fourteen years in prison.

At Deptford Green School we have a duty to report concerns we have about girls at risk of FGM to the police and social services.

FGM occurs mainly in Africa and to a lesser extent, in the Middle East and Asia. Although it is believed by many to be a religious issue, it is a cultural practice. There are no health benefits.

Communities particularly affected by FGM in the UK include girls from: Somalia, Kenya, Ethiopia, Sierra Leone, Sudan, Egypt, Nigeria, Eritrea, Yemen, Indonesia and Afghanistan.

In the UK, FGM tends to occur in areas with larger populations of communities who practice FGM, such as first-generation immigrants, refugees and asylum seekers. These areas include: London, Cardiff, Manchester, Sheffield, Northampton, Birmingham, Oxford, Crawley, Reading, Slough and Milton Keynes. In England and Wales, 23,000 girls under 15 could be at risk of FGM.

#### **Key Points:**

- Not a religious practice
- Occurs mostly to girls aged from 5 – 8 years old; but up to around 15
- Criminal offence in UK since 1985
- Offence since 2003 to take girls abroad
- Criminal penalties include up to 14 years in prison

#### **Reasons for this cultural practice include:**

- Cultural identity – An initiation into womanhood
- Gender Identity – Moving from girl to woman – enhancing femininity
- Sexual control – reduce the woman's desire for sex
- Hygiene/cleanliness – uncut women are regarded as unclean

#### **Risk Factors include:**

- low level of integration into UK society
- mother or sister who has undergone FGM
- girls who are withdrawn from PSHE
- a visiting female elder from the country of origin
- being taken on a long holiday to the family's country of origin
- talk about a 'special' event or procedure to 'become a woman'

#### **High Risk Time**

This procedure often takes place in the summer, as the recovery period after FGM can be 6 to 9 weeks. Schools should be alert to the possibility of FGM as a reason why a girl in a high risk group is absent from school or where the family request an 'authorised absence' for just before or just after the summer school holidays.

Although, it is difficult to identify girls before FGM takes place, where girls from these high risk groups return from a long period of absence with symptoms of FGM, advice should be sought from the police or social services.

#### **Post-FGM Symptoms include:**

- difficulty walking, sitting or standing

- spend longer than normal in the bathroom or toilet
- unusual behaviour after a lengthy absence
- reluctance to undergo normal medical examinations
- asking for help, but may not be explicit about the problem due to embarrassment or fear.

**Longer Term problems include:**

- difficulties urinating or incontinence
- frequent or chronic vaginal, pelvic or urinary infections
- menstrual problems
- kidney damage and possible failure
- cysts and abscesses
- pain when having sex
- infertility
- complications during pregnancy and childbirth
- emotional and mental health problems

The Serious Crime Act 2015 sets out a duty on professionals (including teachers) to notify police when they discover that FGM appears to have been carried out on a girl under 18. In schools, this will usually come from a disclosure.

Teachers must personally report to the police cases where they discover that an act of FGM appears to have been carried out; and discuss any such cases with the safeguarding lead and children's social care. The duty does not apply in relation to at risk or suspected cases.

At Deptford Green School, if we have concerns about FGM, we will discuss these with parents/carers where appropriate, and the young person concerned, before taking any further action. In cases where it is deemed likely that discussing preliminary concerns with the family may put a child(ren) at risk of any kind, we may not discuss this with parents/carers before reporting to the relevant authorities.

## **7.9 Forced Marriage/Honour Based Abuse**

A child who is being forced into marriage is at risk of significant harm through physical, sexual and emotional abuse. Significant harm is defined as a situation where a child is suffering, or is likely to suffer, a degree of physical, sexual and / or emotional harm (through abuse or neglect), which is so harmful that there needs to be compulsory intervention by child protection agencies into the life of the child and their family.

The reasons given by parents who force their children to marry include protecting their children, building stronger families, strengthening family links, protecting family honour (e.g. promiscuity or homosexuality), retaining or acquiring wealth, appeasement etc.

Suspicious that a child may be forced into marriage may arise in a number of ways, including:

- A family history of older siblings leaving education early and marrying early;
- Depressive behaviour including self-harming and attempted suicide;
- Unreasonable restrictions such as being kept at home by their parents ('house arrest') or being unable to complete their education;
- A child being in conflict with their parents;
- A child going missing / running away;
- A child always being accompanied including to school and doctors' appointments;

- A child talking about an upcoming family holiday that they are worried about, fears that they will be taken out of education and kept abroad; or
- A child directly disclosing that they are worried s/he will be forced to marry.

Information about a forced marriage may come from one of the child's peer group, a relative or member of the child's local community, from another professional or when other family issues are addressed, such as domestic violence between parents.

Situations where a child fears being forced into marriage have similarities with both domestic violence and honour based abuse. Forced marriage may involve the child being taken out of the country (trafficked) for the ceremony, is likely to involve non-consensual and/or underage sex, and refusal to go through with a forced marriage has sometimes been linked to so-called 'honour killing'.

Professionals should respond in a similar way to forced marriage as with domestic violence and honour based abuse (i.e. in facilitating disclosure, developing individual safety plans, ensuring the child's safety by according them confidentiality in relation to the rest of the family, completing individual risk assessments etc).

## 7. 10 Domestic Abuse

Behaviour of a person towards another person is “domestic abuse” if— both of them are aged 16 or over and are personally connected to each other, and the behaviour is abusive. Behaviour is “abusive” if it consists of any of the following—

(a) Physical or Sexual Abuse;

(b) Violent or Threatening Behaviour;

(c) Controlling or Coercive Behaviour;

(d) Economic Abuse - Economic abuse means any behaviour that has a substantial adverse effect on B's ability to— (a) Acquire, use or maintain money or other property, or (b) Obtain goods or service

(e) Psychological, Emotional or other abuse; and it does not matter whether the behaviour consists of a single incident or a course of conduct.

In extreme cases this could include murder.

Controlling behaviour is a range of acts designed to make a person subordinate and/or dependent by isolating them from sources of support, exploiting their resources and capacities for personal gain, depriving them of the means needed for independence, resistance and escape and regulating their everyday behaviour.

Coercive behaviour is an act or a pattern of acts of assault, threats, humiliation and intimidation or other abuse that is used to harm, punish, or frighten their victim.

### Children as victims of domestic abuse

This section applies where behaviour of a person (“A”) towards another person (“B”) is domestic abuse. Any reference to a victim of domestic abuse includes a reference to a child who— (a) sees or hears, or experiences the effects of, the abuse, and (b) is related to A or B. (3) A child is related to a person for the purposes of subsection (2) if— (a) the person is a parent of, or has parental

responsibility for, the child, or (b)the child and the person are relatives. (4) In this section— •“child” means a person under the age of 18 years; •“parental responsibility” has the same meaning as in the Children Act 1989 (see section 3 of that Act); •“relative” has the meaning given by section 63(1) of the Family Law Act 1996

## **Teenagers experiencing domestic abuse**

Domestic abuse can happen in any relationship, and it affects young people too.

They may not realise that what's happening is abuse. Even if they do, they might not tell anyone about it because they're scared of what will happen, or ashamed about what people will think.

It's often difficult to tell if domestic abuse is happening, because it usually takes place in the family home and abusers can act very differently when other people are around.

Children who witness domestic abuse may:

- become aggressive
- display anti-social behaviour
- suffer from depression or anxiety
- not do as well at school - due to difficulties at home or disruption of moving to and from refuges.

Where potential cases of Domestic Violence are identified, the school will conduct an assessment using the Domestic Abuse Stalking and Harrassment (DASH) Risk Indicator Checklist. If a case causes enough concern following this assessment, the Designated Safeguarding Lead (DSL), will make the necessary referral(s) on to other appropriate agencies.

## **7.11 Operation Encompass**

At Deptford Green School we are working in partnership with the Metropolitan Police and Lewisham Children's Services to identify and provide appropriate support to pupils who have experienced domestic violence in their household; this scheme is called Operation Encompass.

The purpose of Operation Encompass is to safeguard and support children and young people who have been involved in or witness to a domestic abuse incident. Domestic abuse impacts on children in a number of ways. Children are at increased risk of physical injury during an incident, either by accident or because they attempt to intervene. Even when not directly injured, children are greatly distressed by witnessing the physical and emotional suffering of a parent.

Encompass has been created to address this situation. It is the implementation of key partnership working between the police and schools. The aim of sharing information with local schools is to allow 'Key Adults' the opportunity of engaging with the child and to provide access to support that allows them to remain in a safe but secure familiar environment.

In order to achieve this, the Lewisham Multi-Agency Safeguarding Hub will share police information of all domestic incidents where one of our pupils has been present, with the Designated Safeguarding Lead(s) (DSL). On receipt of any information, the DSL will decide on the appropriate support the child requires, this could be silent or overt dependent on the needs and wishes of the child. All information sharing and resulting actions will be undertaken in accordance with the Metropolitan Police and Lewisham MASH Encompass Protocol Data Sharing Agreement. We will

record this information and store this information in accordance with the record keeping procedures outlined in this policy.

## **7.12 Child sexual exploitation (CSE)**

Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology.

This involves exploitative situations, contexts and relationships where young people receive something (for example food, accommodation, drugs, alcohol, gifts, money or in some cases simply affection) as a result of engaging in sexual activities. Sexual exploitation can take many forms ranging from the seemingly 'consensual' relationship where sex is exchanged for affection or gifts, to serious organised crime by gangs and groups. What marks out exploitation is an imbalance of power in the relationship. The perpetrator always holds some kind of power over the victim which increases as the exploitative relationship develops. Sexual exploitation involves varying degrees of coercion, intimidation or enticement, including unwanted pressure from peers to have sex, sexual bullying including cyberbullying and grooming. However, it is also important to recognise that some young people who are being sexually exploited do not exhibit any external signs of this abuse.

A common feature of CSE is that the child or young person does not recognise the coercive nature of the relationship and does not see themselves as a victim of exploitation. This means that they are unlikely to report the abuse so police and partners must be alert to the signs of CSE and actively look for victims. CSE can also occur through the use of technology without the child's immediate recognition; for example, being persuaded to post images on the internet/ mobile phones without immediate payment or gain.

Staff should be aware of the key indicators of children being sexually exploited which can include:

- going missing for periods of time or regularly coming home late;
- regularly missing school or education or not taking part in education;
- appearing with unexplained gifts or new possessions;
- associating with other young people involved in exploitation;
- having older boyfriends or girlfriends;
- suffering from sexually transmitted infections;
- mood swings or changes in emotional wellbeing;
- drug and alcohol misuse; and
- displaying inappropriate sexualised behaviour.

Staff should also be aware that many children and young people who are victims of sexual exploitation do not recognise themselves as such.

There are three main types of child sexual exploitation:

### **Inappropriate relationships:**

Usually involves just one abuser who has inappropriate power – physical, emotional or financial – or control over a young person. The young person may believe they have a genuine friendship or loving relationship with their abuser.

### **Boyfriend/Girlfriend:**

Abuser grooms victim by striking up a normal relationship with them, giving them gifts and meeting in cafés or shopping centres. A seemingly consensual sexual relationship develops but later turns abusive. Victims may be required to attend parties and sleep with multiple men/women and threatened with violence if they try to seek help.

If colleagues have concerns about any students at risk of CSE, they should ensure that their concerns are passed promptly on to the DSL so that a referral is made to the Concerns Hub. Any school can complete the referral form by sending a request to PLMailbox-ConcernHub@met.police.uk

### **7.13 Child Criminal Exploitation (CCE)**

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity:

- In exchange for something the victim needs or wants, and/or
- The financial or other advantage of the perpetrator or facilitator and/or
- Through violence or the threat of violence

The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

If colleagues have concerns regarding any students at risk of CCE, they should ensure that their concerns are passed promptly on to the DSL.

### **County Lines**

County Lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas (within the UK), using dedicated mobile phone lines or other form of 'deal line'.

Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move (and store) drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes. Children are often recruited to move drugs and money between locations.

Staff should be aware of some of the key indicators of children who are involved in county lines, including:

- Going missing for periods of time or regularly coming home late;

- Regularly missing school or education or not taking part in education;
- Appearing with unexplained gifts or new possessions;
- Associating with other young people involved in county lines;
- Having older friends
- Mood swings or changes in emotional wellbeing; and
- Drug and/or alcohol misuse

If colleagues have concerns about any students at risk of county lines, they should ensure that their concerns are passed promptly to the DSL so that a referral is made to the Concerns Hub. Any school can complete the referral form by sending a request to PLMailbox-ConcernHub@met.police.uk

### **7.14 Organised exploitation and trafficking**

Trafficking involves the recruitment, transportation and exploitation of women and children for the purposes of prostitution and domestic servitude across international borders and within countries

Victims are trafficked through criminal networks – often between towns and cities – and forced or coerced into sex with multiple men. They may also be used to recruit new victims. This serious organised activity can involve the buying and selling of young people.

Also, modern slavery encompasses human trafficking, as defined in the UN Palermo Protocol and the Council of Europe Convention and as made illegal in UK legislation under the Sexual Offences Act 2003 and the Asylum and Immigration (Treatment of Claimants) Act 2004. It also includes cases of slavery and servitude as made illegal in the Coroners and Justice Act 2009, which criminalises holding a person in slavery or servitude or requiring a person to perform forced or compulsory labour. When referring to modern slavery, it encompasses all of the forms of human trafficking, slavery and servitude that have been defined in national and international laws and agreements.

Signs that a child has been trafficked may not be obvious but you might notice unusual behaviour or events. These include a child who:

- spends a lot of time doing household chores
- rarely leaves their house, has no freedom of movement and no time for playing
- is orphaned or living apart from their family, often in unregulated private foster care
- lives in substandard accommodation
- isn't sure which country, city or town they're in
- is unable or reluctant to give details of accommodation or personal details
- might not be registered with a school or a GP practice
- has no documents or has falsified documents
- has no access to their parents or guardians
- is seen in inappropriate places such as brothels or factories
- possesses unaccounted for money or goods
- is permanently deprived of a large part of their earnings, required to earn a minimum amount of money every day or pay off an exorbitant debt
- has injuries from workplace accidents
- gives a prepared story which is very similar to stories given by other children.

Our procedures for responding to concerns about students at risk of or victims of modern slavery are informed by the statutory DfE guidance 'Care of unaccompanied migrant child and child victims of modern slavery, published in November 2017. All concerns about students who may be being trafficked should be passed straight to the DSL on our standard concerns form.

## **7.15 Peer on Peer abuse including sharing of nudes and children displaying Harmful Sexual Behaviours**

At Deptford Green School we teach all students to be kind and respectful both online and in person and at all times. During assemblies, tutor sessions, pastoral sessions and through the RSHE and PSHE curriculum we teach students about consent, what respectful behaviours look like, health relationships and body confidence and self esteem. We also teach them that their safety and wellbeing is our number one priority, we will always listen to them if there is a concern, we will always act on their concerns and we will not tolerate or accept any kind of abuse. Students are told to 'shout out' the abuse no matter how small.

Peer on peer abuse can take many forms including physical (including hitting, kicking, shaking, biting, hair pulling etc.), sexual (e.g. inappropriate touching) and emotional abuse (including bullying & cyberbullying). Department for Education (DfE).

September 2021: Keeping children safe in education; statutory guidance for schools and colleges, makes it clear that abuse is abuse and should never be tolerated or passed off as 'banter' or part of 'growing up'. The Equality Act 2010 replaced previous anti-discrimination laws with a single Act.

A key provision was a new public sector Equality Duty, which came into force on 5 April 2011. This requires the school/college to:

- Eliminate unlawful discrimination, harassment, victimisation and any other conduct prohibited by the act
- Advance equality of opportunity between people who share a protected characteristic (age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex and sexual orientation) and people who do not share it
- Foster good relations between people who share a protected characteristic and people who do not share it.

Peer on peer abuse often involves an imbalance of power between the perpetrator and the victim. This could involve perpetrators having control over the relationship which makes it difficult for those they abuse to defend themselves. This imbalance of power can manifest itself in several ways. It may be physical, psychological (knowing what upsets someone), or social (e.g. isolating or excluding someone). It could also include issues such as revenge porn or what are often gender issues (e.g. girls being touched or boys being involved in initiation activities).

At Deptford Green School we believe that all children have the right to attend school and learn in a safe environment. Children should be free from harm by adults in the school and other students.

We recognise that some students will sometimes negatively affect the learning and wellbeing of others and their behaviour will be dealt with under the school's Behaviour and Anti-Bullying Policies where necessary. However, there will be occasions when a child's behaviour warrants a response under child protection rather than anti-bullying procedures. In particular, research suggests that up to 30 per cent of child sexual abuse is committed by someone under the age of 18.

Child Protection issues raised in this way may include physical abuse, emotional abuse, sexual abuse and sexual exploitation. It is likely that to be considered a safeguarding allegation against a pupil, some of the following features will be found.

The allegation:

- is made against an older pupil and refers to their behaviour towards a younger pupil or a more vulnerable pupil
- is of a serious nature, possibly including a criminal offence
- raises risk factors for other pupils in the school
- indicates that other pupils may have been affected by this student
- indicates that young people outside the school may be affected by this student

The management of children and young people with sexually harmful behaviour is complex and the school will work with other relevant agencies to maintain the safety of the whole school community. Young people who display such behaviour may be victims of abuse themselves and the child protection procedures will be followed for both victim and perpetrator. KCSIE 2021 defines a form of peer on peer abuse described as “upskirting”, which typically involves taking a picture under a person’s clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm”.

At Deptford Green School we will support the person/people affected by peer on peer abuse by following DfE guidance ‘Sexual Violence and sexual harassment between children in schools and colleges’, first published in December 2017.

We will take a proportionate, considered and supportive actions and these will be decided on a case by case basis. We will always take the wishes of the victim into account, we will take their safety and wellbeing seriously, listen to them and we will act on their concerns.

Please refer to our BFL policy for all of the different actions we will consider when dealing with each case. All incidents will be acted upon, we will either; manage it internally, refer to early help, refer to children’s social care and /or refer to the police.

## **Sharing of nudes and semi-nudes (‘sexting’)**

### **Your responsibilities when responding to an incident**

If you are made aware of an incident involving the consensual or non-consensual sharing of nude or semi-nude images/videos (also known as ‘sexting’ or ‘youth produced sexual imagery’), you must report it to the DSL immediately.

You must **not**:

- View, copy, print, share, store or save the imagery yourself, or ask a pupil to share or download it (if you have already viewed the imagery by accident, you must report this to the DSL)
- Delete the imagery or ask the pupil to delete it
- Ask the pupil(s) who are involved in the incident to disclose information regarding the imagery (this is the DSL’s responsibility)
- Share information about the incident with other members of staff, the pupil(s) it involves or their, or other, parents and/or carers
- Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident, and reassure the pupil(s) that they will receive support and help from the DSL.

### **Initial review meeting**

Following a report of an incident, the DSL will hold an initial review meeting with appropriate school staff – this may include the staff member who reported the incident and the safeguarding or leadership team that deals with safeguarding concerns. This meeting will consider the initial evidence and aim to determine:

- › Whether there is an immediate risk to pupil(s)
- › If a referral needs to be made to the police and/or children's social care
- › If it is necessary to view the image(s) in order to safeguard the young person (in most cases, images or videos should not be viewed)
- › What further information is required to decide on the best response
- › Whether the image(s) has been shared widely and via what services and/or platforms (this may be unknown)
- › Whether immediate action should be taken to delete or remove images or videos from devices or online services
- › Any relevant facts about the pupils involved which would influence risk assessment
- › If there is a need to contact another school, college, setting or individual
- › Whether to contact parents or carers of the pupils involved (in most cases parents/carers should be involved)

The DSL will make an immediate referral to police and/or children's social care if:

- › The incident involves an adult
- › There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)
- › What the DSL knows about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
- › The imagery involves sexual acts and any pupil in the images or videos is under 13
- › The DSL has reason to believe a pupil is at immediate risk of harm owing to the sharing of nudes and semi-nudes (for example, the young person is presenting as suicidal or self-harming)

If none of the above apply then the DSL, in consultation with the headteacher and other members of staff as appropriate, may decide to respond to the incident without involving the police or children's social care. The decision will be made and recorded in line with the procedures set out in this policy.

### **Further review by the DSL**

If at the initial review stage a decision has been made not to refer to police and/or children's social care, the DSL will conduct a further review to establish the facts and assess the risks.

They will hold interviews with the pupils involved (if appropriate).

If at any point in the process there is a concern that a pupil has been harmed or is at risk of harm, a referral will be made to children's social care and/or the police immediately.

### **Informing parents/carers**

The DSL will inform parents/carers at an early stage and keep them involved in the process, unless there is a good reason to believe that involving them would put the pupil at risk of harm.

## Referring to the police

If it is necessary to refer an incident to the police, this will be done through our safer schools officer (PC Gary Arterton).

## Recording incidents

All incidents of sharing of nudes and semi-nudes, and the decisions made in responding to them, will be recorded. The record-keeping arrangements set out in section 14 of this policy also apply to recording these incidents.

## Curriculum coverage

Pupils are taught about the issues surrounding the sharing of nudes and semi-nudes as part of our PSHE and relationships and sex education . Teaching covers the following in relation to the sharing of nudes and semi-nudes:

- What it is
- How it is most likely to be encountered
- The consequences of requesting, forwarding or providing such images, including when it is and is not abusive and when it may be deemed as online sexual harassment
- Issues of legality
- The risk of damage to people's feelings and reputation

Pupils also learn the strategies and skills needed to manage:

- Specific requests or pressure to provide (or forward) such images
- The receipt of such images

This policy on the sharing of nudes and semi-nudes is also shared with pupils so they are aware of the processes the school will follow in the event of an incident.

## 7.16 Preventing Radicalisation

'Channel' and 'Prevent'

Terrorism is defined in KCSIE 2021 as "an action that endangers or causes violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause".

As part of the Counter Terrorism and Security Act 2015, schools have a duty to 'prevent people being drawn into terrorism'. This has become known as the 'Prevent Duty'. Channel, a key element of the Home Office's "Prevent" strategy, is a multi-agency approach to protect people at risk from radicalisation. As a school we will work with the local authority, local law enforcement, and religious and community leaders, to identify children vulnerable to radicalisation, and to stamp out extremism if it arises. This includes identifying pupils:

- Displaying feelings of grievance and injustice
- Feeling under threat
- Searching for identity, meaning and belonging
- Who have a desire for status amongst their peers
- Shows empathy for extremist causes
- Glorifying violence, especially other faiths or cultures
- Who have a desire for excitement and adventure

- Displaying a need to dominate and control others
- Who have a susceptibility to indoctrination
- Displaying a radical desire for political or moral change
- Who are susceptible to opportunistic involvement
- Who have family or friends involved in extremism
- Susceptible to being influenced or controlled by a group
- With relevant mental health issues
- Secretive behaviour
- Advocating messages similar to illegal organisations or other extremist groups

We will always take allegations and concerns of radicalisation and/or terrorism seriously. We will help pupils channel their desire for excitement and adventure into suitable and healthy activities. Radicalisation and extremism can be wider than religious beliefs and linked affiliations and can include radicalisation around far right groups and also by criminal groups connected with gang activity.

We will work with local religious and cultural organisations to instil a strong sense of identity in our pupils, as well as a clear place and purpose within the school. We use the curriculum to ensure that children and young people understand how people with extreme views share these with others, especially using the internet.

We will establish appropriate filters to protect children from terrorist and extremist material online.

Our school is stronger thanks to our open, multi-cultural and multi-faith community. We will always aim to integrate and engage every child within the school community, and in the wider community.

We will celebrate a range of different religious and cultural festivals across the year, giving every child the opportunity to take part.

We will monitor and assess incidents which suggest pupils are engaging, or are at risk of engaging in, extremist activity and/or radicalisation.

Where staff are concerned that children and young people are developing extremist views or show signs of becoming radicalised in any way, they should discuss this with the DSL.

### **7.17 Mental health/self-harm**

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be alert to behavioural signs that suggest a child may be experiencing a mental health problem or be at risk of developing one.

If you have a mental health concern about a child that is also a safeguarding concern, take immediate action by logging your concern on CPOMS.

If you have a mental health concern that is **not** also a safeguarding concern, speak to the DSL to agree a course of action.

At Deptford Green School staff receive regular training about recognising and responding to mental health issues as a part of their regular child protection training in order to enable them to be aware that mental health issues can in some cases be an indicator that a child has suffered or is at risk of suffering abuse, neglect, or exploitation.

For further details of our school's procedures around supporting children who are self-harming or experiencing any other mental health issues refer to our Mental health policy.

At Deptford Green School we always refer to the Department for Education guidance on [mental health and behaviour in schools](#) for more information, support and guidance.

## **7. 18 Online safety and the use of mobile technology**

We recognise the importance of safeguarding children from potentially harmful and inappropriate online material, and we understand that technology is a significant component in many safeguarding and wellbeing issues.

To address this, our school aims to:

- › Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- › Protect and educate the whole school community in its safe and responsible use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- › Set clear guidelines for the use of mobile phones for the whole school community
- › Establish clear mechanisms to identify, intervene in and escalate any incidents or concerns, where appropriate

### **The 4 key categories of risk**

Our approach to online safety is based on addressing the following categories of risk:

- › **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation and extremism
- › **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- › **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- › **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

### **To meet our aims and address the risks above we will:**

- › Educate pupils about online safety as part of our curriculum. For example:
  - The safe use of social media, the internet and technology
  - Keeping personal information private
  - How to recognise unacceptable behaviour online
  - How to report any incidents of cyber-bullying, ensuring pupils are encouraged to do so, including where they are a witness rather than a victim
- › Train staff, as part of their induction, on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation. All staff members will receive refresher training at least once each academic year
- › Educate parents/carers about online safety via our website, communications sent directly to them and during parents' evenings. We will also share clear procedures with them so they know how to raise concerns about online safety

- Make sure staff are aware of any restrictions placed on them with regards to the use of their mobile phone and cameras, for example that:
  - Staff are allowed to bring their personal phones to school for their own use, but will limit such use to non-contact time when pupils are not present
  - Staff will not take pictures or recordings of pupils on their personal phones or cameras
- Make all pupils, parents/carers, staff, volunteers and governors aware that they are expected to sign an agreement regarding the acceptable use of the internet in school, use of the school's ICT systems and use of their mobile and smart technology
- Explain the sanctions we will use if a pupil is in breach of our policies on the acceptable use of the internet and mobile phones
- Make sure all staff, pupils and parents/carers are aware that staff have the power to search pupils' phones, as set out in the [DfE's guidance on searching, screening and confiscation](#)
- Put in place robust filtering and monitoring systems to limit children's exposure to the 4 key categories of risk (described above) from the school's IT systems
- Carry out an annual review of our approach to online safety, supported by an annual risk assessment that considers and reflects the risks faced by our school community

This section summarises our approach to online safety and mobile phone use. For comprehensive details about our school's policy on online safety and the use of mobile phones, please refer to our online safety policy and our behaviour for learning policy (which includes our mobile phone policy).

## **7.19 Concerns about a staff member, supply teacher, volunteer or contractor**

If you have concerns about a member of staff (including a supply teacher, volunteer or contractor), or an allegation is made about a member of staff (including a supply teacher, volunteer or contractor) posing a risk of harm to children, speak to the headteacher as soon as possible. If the concerns/allegations are about the headteacher, speak to the chair of governors (Sid Hughes).

The headteacher/chair of governors will then follow the procedures set out in appendix 3, if appropriate.

Where you believe there is a conflict of interest in reporting a concern or allegation about a member of staff (including a supply teacher, volunteer or contractor) to the headteacher, report it directly to the local authority designated officer (LADO).

## **7.20 Allegations of abuse made against other pupils**

We recognise that children are capable of abusing their peers. Abuse will never be tolerated or passed off as "banter", "just having a laugh" or "part of growing up", as this can lead to a culture of unacceptable behaviours and an unsafe environment for pupils.

We also recognise the gendered nature of peer-on-peer abuse. However, all peer-on-peer abuse is unacceptable and will be taken seriously.

Most cases of pupils hurting other pupils will be dealt with under our school's behaviour policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

- Is serious, and potentially a criminal offence
- Could put pupils in the school at risk

- Is violent
- Involves pupils being forced to use drugs or alcohol
- Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including the sharing of nudes and semi-nudes)

### **Procedures for dealing with allegations of peer-on-peer abuse**

If a pupil makes an allegation of abuse against another pupil:

- You must record the allegation and tell the DSL, but do not investigate it
- The DSL will contact the local authority children's social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence
- The DSL will put a risk assessment and support plan into place for all children involved (including the victim(s), the child(ren) against whom the allegation has been made and any others affected) with a named person they can talk to if needed
- The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

### **Creating a supportive environment in school and minimising the risk of peer-on-peer abuse**

We recognise the importance of taking proactive action to minimise the risk of peer-on-peer abuse, and of creating a supportive environment where victims feel confident in reporting incidents.

To achieve this, we will:

- Challenge any form of derogatory or sexualised language or inappropriate behaviour between peers, including requesting or sending sexual images
- Be vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female pupils, and initiation or hazing type violence with respect to boys
- Ensure our curriculum helps to educate pupils about appropriate behaviour and consent
- Ensure pupils are able to easily and confidently report abuse using our reporting systems
- Ensure staff reassure victims that they are being taken seriously
- Ensure staff are trained to understand:
  - How to recognise the indicators and signs of peer-on-peer abuse, and know how to identify it and respond to reports
  - That even if there are no reports of peer-on-peer abuse in school, it does not mean it is not happening – staff should maintain an attitude of “it could happen here”
  - That if they have any concerns about a child's welfare, they should act on them immediately rather than wait to be told, and that victims may not always make a direct report. For example:
    - Children can show signs or act in ways they hope adults will notice and react to
    - A friend may make a report
    - A member of staff may overhear a conversation

- A child's behaviour might indicate that something is wrong
- That certain children may face additional barriers to telling someone because of their vulnerability, disability, gender, ethnicity and/or sexual orientation
- That a pupil harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy
- The important role they have to play in preventing peer-on-peer abuse and responding where they believe a child may be at risk from it
- That they should speak to the DSL if they have any concerns

## **7.21 Reporting systems for our pupils**

Where there is a safeguarding concern, we will take the child's wishes and feelings into account when determining what action to take and what services to provide.

We recognise the importance of ensuring pupils feel safe and comfortable to come forward and report any concerns and/or allegations.

To achieve this, we will:

- Put systems in place for pupils to confidently report abuse
- Ensure our reporting systems are well promoted, easily understood and easily accessible for pupils
- Make it clear to pupils that their concerns will be taken seriously, and that they can safely express their views and give feedback
- Students can report concerns to the safeguarding team, the Head of Year, Pastoral Leader of Pastoral Assistant or to their tutor or class teacher. They can do this in person or via email.
- Pupils are aware of the reporting systems and processes, e.g. through assemblies, tutor time, PSHE, RSHE

## **8. Notifying parents or carers**

Where appropriate, we will discuss any concerns about a child with the child's parents or carers. The DSL will normally do this in the event of a suspicion or disclosure.

Other staff will only talk to parents or carers about any such concerns following consultation with the DSL.

If we believe that notifying the parents or carers would increase the risk to the child, we will discuss this with the local authority children's social care team before doing so.

In the case of allegations of abuse made against other children, we will normally notify the parents or carers of all the children involved.

## **9. Pupils with special educational needs, disabilities or health issues**

We recognise that pupils with special educational needs (SEN) or disabilities or certain health conditions can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group, including:

- Assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- Pupils being more prone to peer group isolation or bullying (including prejudice-based bullying) than other pupils
- The potential for pupils with SEN, disabilities or certain health conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs
- Communication barriers and difficulties in managing or reporting these challenges

We offer extra pastoral support for these pupils. This includes:

Space and support in the Sanctuary, a key person (teaching assistant) who knows them and their family well, pastoral interventions and support, behaviour mentoring, time out cards and lots of other support to meet the needs of the child.

## **10. Pupils with a social worker**

Pupils may need a social worker due to safeguarding or welfare needs. We recognise that a child's experiences of adversity and trauma can leave them vulnerable to further harm as well as potentially creating barriers to attendance, learning, behaviour and mental health.

The DSL and all members of staff will work with and support social workers to help protect vulnerable children.

Where we are aware that a pupil has a social worker, the DSL will always consider this fact to ensure any decisions are made in the best interests of the pupil's safety, welfare and educational outcomes. For example, it will inform decisions about:

- Responding to unauthorised absence or missing education where there are known safeguarding risks
- The provision of pastoral and/or academic support

## **11. Looked-after and previously looked-after children**

We will ensure that staff have the skills, knowledge and understanding to keep looked-after children and previously looked-after children safe. In particular, we will ensure that:

- Appropriate staff have relevant information about children's looked after legal status, contact arrangements with birth parents or those with parental responsibility, and care arrangements
- The DSL has details of children's social workers and relevant virtual school heads

We have appointed a designated teacher, Amy Coffey (Deputy Designated Safeguarding Lead), who is responsible for promoting the educational achievement of looked-after children and previously looked-after children in line with [statutory guidance](#).

The designated teacher is appropriately trained and has the relevant qualifications and experience to perform the role.

As part of their role, the designated teacher will:

- Work closely with the DSL to ensure that any safeguarding concerns regarding looked-after and previously looked-after children are quickly and effectively responded to
- Work with virtual school heads to promote the educational achievement of looked-after and previously looked-after children, including discussing how pupil premium plus funding can be best used to support looked-after children and meet the needs identified in their personal education plans

## **12. Complaints and concerns about school safeguarding policies**

### **Complaints against staff**

Complaints against staff that are likely to require a child protection investigation will be handled in accordance with our procedures for dealing with allegations of abuse made against staff (see appendix 3).

### **Whistle-blowing**

At Deptford Green School we have a separate whistle blowing policy which can be found on our school website- see link below.

<https://www.deptfordgreen.lewisham.sch.uk/about-us/school-policies/>

## **13. Record-keeping**

We will hold records in line with our records retention schedule.

All safeguarding concerns, discussions, decisions made and the reasons for those decisions, must be recorded in writing. If you are in any doubt about whether to record something, discuss it with the DSL.

Records will include:

- A clear and comprehensive summary of the concern
- Details of how the concern was followed up and resolved
- A note of any action taken, decisions reached and the outcome

Concerns and referrals will be kept in a separate child protection file for each child.

Any non-confidential records will be readily accessible and available. Confidential information and records will be held securely and only available to those who have a right or professional need to see them.

Safeguarding records relating to individual children will be retained for a reasonable period of time after they have left the school.

Safeguarding records which contain information about allegations of sexual abuse will be retained for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry.

If a child for whom the school has, or has had, safeguarding concerns moves to another school, the DSL will ensure that their child protection file is forwarded promptly and securely, and separately from the main pupil file. In addition, if the concerns are significant or complex, and/or social services

are involved, the DSL will speak to the DSL of the receiving school and provide information to enable them to have time to make any necessary preparations to ensure the safety of the child.

All safeguarding concerns, discussions, decisions made and the reasons for those decisions, must be recorded in writing. If you are in any doubt about whether to record something, discuss it with the DSL.

Safeguarding records relating to individual children will be retained for a reasonable period of time.

All new records are stored electronically on CPOMs. The only staff who can access CPOMs are the safeguarding team and key members of the pastoral team. There are some paper based records and these are all locked away and secure and can only be accessed by the DSL.

## **14. Training**

### **All staff**

All staff members will undertake safeguarding and child protection training at induction, including on whistle-blowing procedures and online safety, to ensure they understand the school's safeguarding systems and their responsibilities, and can identify signs of possible abuse or neglect.

This training will be regularly updated and will:

- Be integrated, aligned and considered as part of the whole-school safeguarding approach and wider staff training, and curriculum planning
- Be in line with advice from the 3 safeguarding partners
- Have regard to the Teachers' Standards to support the expectation that all teachers:
  - Manage behaviour effectively to ensure a good and safe environment
  - Have a clear understanding of the needs of all pupils

All staff will have training on the government's anti-radicalisation strategy, Prevent, to enable them to identify children at risk of being drawn into terrorism and to challenge extremist ideas.

Staff will also receive regular safeguarding and child protection updates, including on online safety, as required but at least annually (for example, through emails, e-bulletins and staff meetings).

Contractors who are provided through a private finance initiative (PFI) or similar contract will also receive safeguarding training.

Volunteers will receive appropriate training, if applicable.

### **The DSL and deputies**

The DSL and deputies will undertake child protection and safeguarding training at least every 2 years.

In addition, they will update their knowledge and skills at regular intervals and at least annually (for example, through e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments).

They will also undertake Prevent awareness training.

### **Governors**

All governors receive training about safeguarding, to make sure they have the knowledge and information needed to perform their functions and understand their responsibilities.

As the chair of governors may be required to act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, they receive training in managing allegations for this purpose.

### **Recruitment – interview panels**

At least one person conducting any interview for any post at the school will have undertaken safer recruitment training. This will cover, as a minimum, the contents of Keeping Children Safe in Education, and will be in line with local safeguarding procedures.

See appendix 2 of this policy for more information about our safer recruitment procedures.

### **Staff who have contact with pupils and families**

All staff who have contact with children and families will have supervisions which will provide them with support, coaching and training, promote the interests of children and allow for confidential discussions of sensitive issues.

## **15. Monitoring arrangements**

This policy will be reviewed **annually** by Emily Stanghon (Designated Safeguarding Lead and Assistant Headteacher). At every review, it will be approved by the full governing board.

## **16. Links with other policies**

This policy links to the following policies and procedures:

- Behaviour for Learning Policy
- Staff code of conduct
- Complaints
- Health and safety
- Attendance
- Online safety
- Mobile phone use
- Equality
- Relationships and sex education
- First aid
- Curriculum
- Designated teacher for looked-after and previously looked-after children
- Whistle blowing policy

**These appendices are based on the Department for Education's statutory guidance, Keeping Children Safe in Education.**

## **Appendix 1: types of abuse**

Abuse, including neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap.

**Physical abuse** may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

**Emotional abuse** is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may involve:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Seeing or hearing the ill-treatment of another
- Serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children

**Sexual abuse** involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve:

- Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing
- Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet)

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

**Neglect** is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect a child from physical and emotional harm or danger
- Ensure adequate supervision (including the use of inadequate care-givers)
- Ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

## **Appendix 2: safer recruitment and DBS checks – policy and procedures**

The recruitment steps outlined below are based on part 3 of Keeping Children Safe in Education. Deptford Green School recognises that sometimes people who want to cause harm to children actively seek employment that gives them access to young people. The school will protect our students from having to come into contact with people with the propensity to cause harm by thorough and rigorous scrutiny of all applications.

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

To make sure we recruit suitable people, we will ensure that those involved in the recruitment and employment of staff to work with children have received appropriate safer recruitment training.

We have put the following steps in place during our recruitment and selection process to ensure we are committed to safeguarding and promoting the welfare of children.

### **Advertising**

When advertising roles, we will make clear:

- Our school's commitment to safeguarding and promoting the welfare of children
- That safeguarding checks will be undertaken
- The safeguarding requirements and responsibilities of the role, such as the extent to which the role will involve contact with children
- Whether or not the role is exempt from the Rehabilitation of Offenders Act 1974 and the amendments to the Exceptions Order 1975, 2013 and 2020. If the role is exempt, certain spent convictions and cautions are 'protected', so they do not need to be disclosed, and if they are disclosed, we cannot take them into account

### **Job descriptions**

Our job descriptions will:

- Include a statement saying that it is an offence to apply for the role if an applicant is barred from engaging in regulated activity relevant to children (where the role involves this type of regulated activity)

### **Shortlisting**

Our shortlisting process will involve at least 2 people and will:

- Consider any inconsistencies and look for gaps in employment and reasons given for them
- Explore all potential concerns

Once we have shortlisted candidates, we will ask shortlisted candidates to:

- Complete a self-declaration of their criminal record or any information that would make them unsuitable to work with children, so that they have the opportunity to share relevant information and discuss it at interview stage. The information we will ask for includes:
  - If they have a criminal history

- Whether they are included on the barred list
- Whether they are prohibited from teaching
- Information about any criminal offences committed in any country in line with the law as applicable in England and Wales
- Any relevant overseas information

➤ Sign a declaration confirming the information they have provided is true

### **Seeking references and checking employment history**

We will obtain references before interview. Any concerns raised will be explored further with referees and taken up with the candidate at interview.

When seeking references we will:

- Not accept open references
- Liaise directly with referees and verify any information contained within references with the referees
- Ensure any references are from the candidate's current employer and completed by a senior person. Where the referee is school based, we will ask for the reference to be confirmed by the headteacher/principal as accurate in respect to disciplinary investigations
- Obtain verification of the candidate's most recent relevant period of employment if they are not currently employed
- Secure a reference from the relevant employer from the last time the candidate worked with children if they are not currently working with children
- Compare the information on the application form with that in the reference and take up any inconsistencies with the candidate
- Resolve any concerns before any appointment is confirmed

### **Interview and selection**

When interviewing candidates, we will:

- Probe any gaps in employment, or where the candidate has changed employment or location frequently, and ask candidates to explain this
- Explore any potential areas of concern to determine the candidate's suitability to work with children
- Record all information considered and decisions made

### **Pre-appointment vetting checks**

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

#### **New staff**

All offers of appointment will be conditional until satisfactory completion of the necessary pre-employment checks. When appointing new staff, we will:

- Verify their identity
- Obtain (via the applicant) an enhanced DBS certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will obtain the certificate

before, or as soon as practicable after, appointment, including when using the DBS update service. We will not keep a copy of the certificate for longer than 6 months, but when the copy is destroyed we may still keep a record of the fact that vetting took place, the result of the check and recruitment decision taken

- Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available
- Verify their mental and physical fitness to carry out their work responsibilities
- Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards
- Verify their professional qualifications, as appropriate
- Ensure they are not subject to a prohibition order if they are employed to be a teacher
- Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK. Where available, these will include:
  - For all staff, including teaching positions: [criminal records checks for overseas applicants](#)
  - For teaching positions: obtaining a letter of professional standing from the professional regulating authority in the country where the applicant has worked

**Regulated activity** means a person who will be:

- Responsible, on a regular basis in a school or college, for teaching, training, instructing, caring for or supervising children; or
- Carrying out paid, or unsupervised unpaid, work regularly in a school or college where that work provides an opportunity for contact with children; or
- Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

### **Existing staff**

In certain circumstances we will carry out all the relevant checks on existing staff as if the individual was a new member of staff. These circumstances are when:

- There are concerns about an existing member of staff's suitability to work with children; or
- An individual moves from a post that is not regulated activity to one that is; or
- There has been a break in service of 12 weeks or more

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

- We believe the individual has engaged in [relevant conduct](#); or
- We believe the individual has received a caution or conviction for a relevant (automatic barring either with or without the right to make representations) offence, under the [Safeguarding Vulnerable Groups Act 2006 \(Prescribed Criteria and Miscellaneous Provisions\) Regulations 2009](#); or
- We believe the 'harm test' is satisfied in respect of the individual (i.e. they may harm a child or vulnerable adult or put them at risk of harm); and
- The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

### **Agency and third-party staff**

We will obtain written notification from any agency or third-party organisation that it has carried out the necessary safer recruitment checks that we would otherwise perform. We will also check that the person presenting themselves for work is the same person on whom the checks have been made.

### **Contractors**

We will ensure that any contractor, or any employee of the contractor, has had the appropriate level of DBS check (this includes contractors who are provided through a PFI or similar contract) or provides us with a letter of assurance. This will be:

- An enhanced DBS check with barred list information for contractors engaging in regulated activity
- An enhanced DBS check, not including barred list information, for all other contractors who are not in regulated activity but whose work provides them with an opportunity for regular contact with children

We will obtain the DBS check for self-employed contractors.

We will not keep copies of such checks for longer than 6 months.

Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances.

We will check the identity of all contractors and their staff on arrival at the school.

### **Trainee/student teachers**

Where applicants for initial teacher training are salaried by us, we will ensure that all necessary checks are carried out.

Where trainee teachers are fee-funded, we will obtain written confirmation from the training provider that necessary checks have been carried out and that the trainee has been judged by the provider to be suitable to work with children.

### **School Governors**

Governing bodies must apply for an enhanced criminal records certificate for any governor who does not already hold one. They must do this by 1 September 2016 where a governor was elected before 1 April 2016 and within 21 days of appointment or election if a governor is elected or appointed after 1 April 2016.

All new governors will be asked to declare their overseas history and where necessary, complete a risk assessment. Existing governors will also/will not be required to complete an overseas criminal history risk assessment in line with our agreed school procedures.

All governors must also undergo a s128 check to confirm any directions which may have been made against them by the Secretary of State. This check will be carried out using the NCTL Teacher Service Portal (formerly known as the Employer Access Online service).

### **Volunteers**

We will:

- Never leave an unchecked volunteer unsupervised or allow them to work in regulated activity
- Obtain an enhanced DBS check with barred list information for all volunteers who are new to working in regulated activity

- Carry out a risk assessment when deciding whether to seek an enhanced DBS check without barred list information for any volunteers not engaging in regulated activity. We will retain a record of this risk assessment

All governors will have an enhanced DBS check without barred list information.

They will have an enhanced DBS check with barred list information if working in regulated activity.

All governors will also have a section 128 check (as a section 128 direction disqualifies an individual from being a maintained school governor).

### **Staff working in alternative provision settings**

Where we place a pupil with an alternative provision provider, outside of Lewisham Borough we obtain written confirmation from the provider that they have carried out the appropriate safeguarding checks on individuals working there that we would otherwise perform.

### **Adults who supervise pupils on work experience**

When organising work experience, we will ensure that policies and procedures are in place to protect children from harm.

We will also consider whether it is necessary for barred list checks to be carried out on the individuals who supervise a pupil under 16 on work experience. This will depend on the specific circumstances of the work experience, including the nature of the supervision, the frequency of the activity being supervised, and whether the work is regulated activity.

### **Pupils staying with host families**

Where the school makes arrangements for pupils to be provided with care and accommodation by a host family to which they are not related (for example, during a foreign exchange visit), we will request enhanced DBS checks with barred list information on those people.

Where the school is organising such hosting arrangements overseas and host families cannot be checked in the same way, we will work with our partner schools abroad to ensure that similar assurances are undertaken prior to the visit.

### **Single Central Record (SCR)**

We keep a SCR for the school. Generally, the information to be recorded is whether or not the following checks have been carried out or certificates obtained, and the date on which the checks were completed and by whom:

- an identity check;
- a barred list check;
- an enhanced DBS check;
- a prohibition from teaching check;
- further checks on people living or working outside the UK;
- a check of professional qualifications; and
- a check to establish the person's right to work in the United Kingdom.

The SCR will cover the following people:

- all staff (including supply staff) who work at the school
- all others who work in regular contact with children in the school including volunteers.
- Governors

In order to comply with the requirements of the Data Protection Act, we will not retain a copy of the individual's Disclosure and Barring Service (DBS) Certificate. However, copies of other documents

used to verify the successful candidates identity, right to work and required qualifications will be kept on their personnel file.

## **Appendix 3: allegations of abuse made against staff**

### **Section 1: allegations that may meet the harms threshold**

This section is based on 'Section 1: Allegations that may meet the harms threshold' in part 4 of Keeping Children Safe in Education.

This section applies to all cases in which it is alleged that a current member of staff, including a supply teacher, volunteer or contractor, has:

- Behaved in a way that has harmed a child, or may have harmed a child, and/or
- Possibly committed a criminal offence against or related to a child, and/or
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, and/or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children – this includes behaviour taking place both inside and outside of school

We will deal with any allegation of abuse quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

A 'case manager' will lead any investigation. This will be the headteacher, or the chair of governors where the headteacher is the subject of the allegation. The case manager will be identified at the earliest opportunity.

Our procedures for dealing with allegations will be applied with common sense and judgement.

### **Suspension of the accused until the case is resolved**

Suspension of the accused will not be the default position, and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that there might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the school so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents/carers have been consulted

- › Temporarily redeploying the individual to another role in a different location, for example to an alternative school or other work for the Local Authority

If in doubt, the case manager will seek views from the school's personnel adviser and the designated officer at the local authority, as well as the police and children's social care where they have been involved.

## Definitions for outcomes of allegation investigations

- › **Substantiated:** there is sufficient evidence to prove the allegation
- › **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive, or to cause harm to the subject of the allegation
- › **False:** there is sufficient evidence to disprove the allegation
- › **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- › **Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made

## Procedure for dealing with allegations

In the event of an allegation that meets the criteria above, the case manager will take the following steps:

- › Conduct basic enquiries in line with local procedures to establish the facts to help determine whether there is any foundation to the allegation before carrying on with the steps below
- › Discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)
- › Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies
- › Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate
- › Where the case manager is concerned about the welfare of other children in the community or the individual's family, they will discuss these concerns with the DSL and make a risk assessment of the situation. If necessary, the DSL may make a referral to children's social care
- › **If immediate suspension is considered necessary**, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details

- **If it is decided that no further action is to be taken** in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation
- **If it is decided that further action is needed**, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate
- Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate. Staff can get support and information from their trade union representative, the employee support programme, Place to Be can also offer counselling support for staff if they require it.
- Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice
- Keep the parents or carers of the child/children involved informed of the progress of the case (only in relation to their child – no information will be shared regarding the staff member)
- Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the secretary of state has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the police are involved, wherever possible the school will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

#### **Additional considerations for supply teachers and all contracted staff**

If there are concerns or an allegation is made against someone not directly employed by the school, such as a supply teacher or contracted staff member provided by an agency, we will take the actions below in addition to our standard procedures.

- We will not decide to stop using an individual due to safeguarding concerns without finding out the facts and liaising with our LADO to determine a suitable outcome
- The governing board will discuss with the agency whether it is appropriate to suspend the individual, or redeploy them to another part of the school, while the school carries out the investigation
- We will involve the agency fully, but the school will take the lead in collecting the necessary information and providing it to the LADO as required
- We will address issues such as information sharing, to ensure any previous concerns or allegations known to the agency are taken into account (we will do this, for example, as part of the allegations management meeting or by liaising directly with the agency where necessary)

When using an agency, we will inform them of our process for managing allegations, and keep them updated about our policies as necessary, and will invite the agency's HR manager or equivalent to meetings as appropriate.

## Timescales

We will deal with all allegations as quickly and effectively as possible and will endeavour to comply with the following timescales, where reasonably practicable:

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious should be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, appropriate action should be taken within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, this should be held within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the required action as soon as possible thereafter.

## Specific actions

### Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

### Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the school will make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the school will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

### Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

### Unsubstantiated, unfounded, false or malicious reports

If a report is:

- Determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

### Unsubstantiated, unfounded, false or malicious allegations

If an allegation is:

- Determined to be unsubstantiated, unfounded, false or malicious, the LADO and case manager will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate

- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

## Confidentiality and information sharing

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the LADO, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

## Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case.

The records of any allegation that, following an investigation, is found to be malicious or false will be deleted from the individual's personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file of the individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the school will provide a copy to the individual, in agreement with children's social care or the police as appropriate.

Where records contain information about allegations of sexual abuse, we will preserve these for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry. We will retain all other records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

## References

When providing employer references, we will:

- Not refer to any allegation that has been found to be false, unfounded, unsubstantiated or malicious, or any repeated allegations which have all been found to be false, unfounded, unsubstantiated or malicious
- Include substantiated allegations, provided that the information is factual and does not include opinions

## Learning lessons

After any cases where the allegations are *substantiated*, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

## Non-recent allegations

Abuse can be reported, no matter how long ago it happened.

We will report any non-recent allegations made by a child to the LADO in line with our local authority's procedures for dealing with non-recent allegations.

Where an adult makes an allegation to the school that they were abused as a child, we will advise the individual to report the allegation to the police.

## Section 2: concerns that do not meet the harm threshold

The section is based on 'Section 2: Concerns that do not meet the harm threshold' in part 4 of Keeping Children Safe in Education.

This section applies to all concerns (including allegations) about members of staff, including supply teachers, volunteers and contractors, which do not meet the harm threshold set out in section 1 above.

Concerns may arise through, for example:

- › Suspicion
- › Complaint
- › Disclosure made by a child, parent or other adult within or outside the school
- › Pre-employment vetting checks

We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

## Definition of low-level concerns

The term 'low-level' concern is any concern – no matter how small – that an adult working in or on behalf of the school may have acted in a way that:

- › Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work,  
**and**
- › Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the designated officer at the local authority

Examples of such behaviour could include, but are not limited to:

- › Being overly friendly with children
- › Having favourites
- › Taking photographs of children on their mobile phone
- › Engaging with a child on a one-to-one basis in a secluded area or behind a closed door
- › Using inappropriate sexualised, intimidating or offensive language

## Sharing low-level concerns

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to share low-level concerns so that they can be addressed appropriately.

We will create this culture by:

- › Ensuring staff are clear about what appropriate behaviour is, and are confident in distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour, in themselves and others
- › Empowering staff to share any low-level concerns as per section 7.7 of this policy
- › Empowering staff to self-refer
- › Addressing unprofessional behaviour and supporting the individual to correct it at an early stage
- › Providing a responsive, sensitive and proportionate handling of such concerns when they are raised
- › Helping to identify any weakness in the school's safeguarding system

## Responding to low-level concerns

If the concern is raised via a third party, the headteacher will collect evidence where necessary by speaking:

- › Directly to the person who raised the concern, unless it has been raised anonymously
- › To the individual involved and any witnesses

The headteacher will use the information collected to categorise the type of behaviour and determine any further action, in line with the school's staff code of conduct

Keeping Children Safe in Education also links to this report for more information [Developing and implementing a low-level concerns policy: A guide for organisations which work with children](#)]

## Record keeping

All low-level concerns will be recorded in writing. In addition to details of the concern raised, records will include the context in which the concern arose, any action taken and the rationale for decisions and action taken.

Records will be:

- › Kept confidential, held securely and comply with the DPA 2018 and UK GDPR
- › Reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, we will decide on a course of action, either through our disciplinary procedures or, where a pattern of behaviour moves from a concern to meeting the harms threshold as described in section 1 of this appendix, we will refer it to the designated officer at the local authority

- Retained at least until the individual leaves employment at the school

Where a low-level concern relates to a supply teacher or contractor, we will notify the individual's employer, so any potential patterns of inappropriate behaviour can be identified.

## References

We will not include low-level concerns in references unless:

- The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority and is found to be substantiated; and/or
- The concern (or group of concerns) relates to issues which would ordinarily be included in a reference, such as misconduct or poor performance

## **Appendix 4: specific safeguarding issues**

This appendix is mostly based on the advice in Keeping Children Safe in Education, in particular annex B.

### **Children missing from education**

A child going missing from education, particularly repeatedly, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, FGM or forced marriage.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- Are at risk of harm or neglect
- Are at risk of forced marriage or FGM
- Come from Gypsy, Roma, or Traveller families
- Come from the families of service personnel
- Go missing or run away from home or care
- Are supervised by the youth justice system
- Cease to attend a school
- Come from new migrant families

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority if a child is absent for more than 10 days or leaves the school without a new school being named, and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child's name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm or neglect, we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority children's social care team, and the police, if the child is suffering or likely to suffer from harm, or in immediate danger.

## **Child criminal exploitation**

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity, in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced to work in cannabis factories, coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

Indicators of CCE can include a child:

- › Appearing with unexplained gifts or new possessions
- › Associating with other young people involved in exploitation
- › Suffering from changes in emotional wellbeing
- › Misusing drugs and alcohol
- › Going missing for periods of time or regularly coming home late
- › Regularly missing school or education
- › Not taking part in education

If a member of staff suspects CCE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

## **Child sexual exploitation**

Child sexual exploitation (CSE) is a form of child sexual abuse where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity, in exchange for something the victim needs or wants and/or for the financial advantage or increased status of the perpetrator or facilitator. It may, or may not, be accompanied by violence or threats of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

CSE can include both physical contact (penetrative and non-penetrative acts) and non-contact sexual activity. It can also happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam. CSE may also occur without the victim's immediate knowledge, for example through others copying videos or images.

In addition to the CCE indicators above, indicators of CSE can include a child:

- Having an older boyfriend or girlfriend
- Suffering from sexually transmitted infections or becoming pregnant

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

## **Domestic abuse**

Children can witness and be adversely affected by domestic abuse and/or violence at home where it occurs between family members. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background, and domestic abuse can take place inside or outside of the home.

At Deptford Green School we are also aware that older children may also experience domestic abuse and/or violence in their own personal relationships.

Exposure to domestic abuse and/or violence can have a serious, long-lasting emotional and psychological impact on children.

If police are called to an incident of domestic abuse and any children in the household have experienced the incident, the police will inform the key adult in school (usually the designated safeguarding lead) before the child or children arrive at school the following day. This is the procedure where police forces are part of [Operation Encompass](#).

The DSL will provide support according to the child's needs and update records about their circumstances.

## **Homelessness**

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The DSL and deputies will be aware of contact details and referral routes in to the local housing authority so they can raise/progress concerns at the earliest opportunity (where appropriate and in accordance with local procedures).

Where a child has been harmed or is at risk of harm, the DSL will also make a referral to children's social care.

## **So-called 'honour-based' abuse (including FGM and forced marriage)**

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes committed to protect or defend the honour of the family and/or community, including FGM, forced marriage, and practices such as breast ironing.

Abuse committed in this context often involves a wider network of family or community pressure and can include multiple perpetrators.

All forms of HBA are abuse and will be handled and escalated as such. All staff will be alert to the possibility of a child being at risk of HBA or already having suffered it. If staff have a concern, they will speak to the DSL, who will activate local safeguarding procedures.

## **FGM**

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

Section 7.3 of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a pupil is at risk of FGM.

Indicators that FGM has already occurred include:

- A pupil confiding in a professional that FGM has taken place
- A mother/family member disclosing that FGM has been carried out
- A family/pupil already being known to social services in relation to other safeguarding issues
- A girl:
  - Having difficulty walking, sitting or standing, or looking uncomfortable
  - Finding it hard to sit still for long periods of time (where this was not a problem previously)
  - Spending longer than normal in the bathroom or toilet due to difficulties urinating
  - Having frequent urinary, menstrual or stomach problems
  - Avoiding physical exercise or missing PE
  - Being repeatedly absent from school, or absent for a prolonged period
  - Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
  - Being reluctant to undergo any medical examinations
  - Asking for help, but not being explicit about the problem
  - Talking about pain or discomfort between her legs

Potential signs that a pupil may be at risk of FGM include:

- The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- FGM being known to be practised in the girl's community or country of origin
- A parent or family member expressing concern that FGM may be carried out
- A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues
- A girl:
  - Having a mother, older sibling or cousin who has undergone FGM
  - Having limited level of integration within UK society
  - Confiding to a professional that she is to have a "special procedure" or to attend a special occasion to "become a woman"
  - Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents/carers stating that they or a relative will take the girl out of the country for a prolonged period

- Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
- Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to take into account the context of the discussion)
- Being unexpectedly absent from school
- Having sections missing from her 'red book' (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

### **Forced marriage**

Forcing a person into marriage is a crime. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the 'one chance' rule, i.e. we may only have one chance to speak to the potential victim and only one chance to save them.

If a member of staff suspects that a pupil is being forced into marriage, they will speak to the pupil about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- › Speak to the pupil about the concerns in a secure and private place
- › Activate the local safeguarding procedures and refer the case to the local authority's designated officer
- › Seek advice from the Forced Marriage Unit on 020 7008 0151 or [fm@fco.gov.uk](mailto:fm@fco.gov.uk)
- › Refer the pupil to an education welfare officer, pastoral tutor, learning mentor, or school counsellor, as appropriate

### **Preventing radicalisation**

- › **Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups
- › **Extremism** is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces
- › **Terrorism** is an action that:
  - Endangers or causes serious violence to a person/people;
  - Causes serious damage to property; or
  - Seriously interferes or disrupts an electronic system

The use or threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Schools have a duty to prevent children from being drawn into terrorism. The DSL will undertake Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk of children in our school being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding partners and local police force.

We will ensure that suitable internet filtering is in place, and equip our pupils to stay safe online at school and at home.

There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in pupils' behaviour.

The government website [Educate Against Hate](#) and charity [NSPCC](#) say that signs that a pupil is being radicalised can include:

- Refusal to engage with, or becoming abusive to, peers who are different from themselves
- Becoming susceptible to conspiracy theories and feelings of persecution
- Changes in friendship groups and appearance
- Rejecting activities they used to enjoy
- Converting to a new religion
- Isolating themselves from family and friends
- Talking as if from a scripted speech
- An unwillingness or inability to discuss their views
- A sudden disrespectful attitude towards others
- Increased levels of anger
- Increased secretiveness, especially around internet use
- Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- Accessing extremist material online, including on Facebook or Twitter
- Possessing extremist literature
- Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem, or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

If staff are concerned about a pupil, they will follow our procedures set out in section 7.5 of this policy, including discussing their concerns with the DSL.

Staff should **always** take action if they are worried.

## Peer-on-peer abuse

Peer-on-peer abuse is when children abuse other children. This type of abuse can take place inside and outside of school and online.

Peer-on-peer abuse is most likely to include, but may not be limited to:

- Bullying (including cyber-bullying, prejudice-based and discriminatory bullying)
- Abuse in intimate personal relationships between peers

- Physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)
- Sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence)
- Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- Consensual and non-consensual sharing of nudes and semi nudes images and/or videos (also known as sexting or youth produced sexual imagery)
- Upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm
- Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

Where children abuse their peers online, this can take the form of, for example, abusive, harassing, and misogynistic messages; the non-consensual sharing of indecent images, especially around chat groups; and the sharing of abusive images and pornography, to those who don't want to receive such content.

If staff have any concerns about peer-on-peer abuse, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

## **Sexual violence and sexual harassment between children in schools**

Sexual violence and sexual harassment can occur:

- Between 2 children of any age and sex
- Through a group of children sexually assaulting or sexually harassing a single child or group of children
- Online and face to face (both physically and verbally)

Sexual violence and sexual harassment exist on a continuum and may overlap.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school.

If a victim reports an incident, it is essential that staff make sure they are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

Some groups are potentially more at risk. Evidence shows that girls, children with SEN and/or disabilities, and lesbian, gay, bisexual and transgender (LGBT) children are at greater risk.

Staff should be aware of the importance of:

- Challenging inappropriate behaviours

- Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- Challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them

If staff have any concerns about sexual violence or sexual harassment, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

## **Serious violence**

Indicators which may signal that a child is at risk from, or involved with, serious violent crime may include:

- Increased absence from school
- Change in friendships or relationships with older individuals or groups
- Significant decline in performance
- Signs of self-harm or a significant change in wellbeing
- Signs of assault or unexplained injuries
- Unexplained gifts or new possessions (this could indicate that the child has been approached by, or is involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation (see above))

Risk factors which increase the likelihood of involvement in serious violence include:

- Being male
- Having been frequently absent or permanently excluded from school
- Having experienced child maltreatment
- Having been involved in offending, such as theft or robbery

Staff will be aware of these indicators and risk factors. If a member of staff has a concern about a pupil being involved in, or at risk of, serious violence, they will report this to the DSL.

## **Checking the identity and suitability of visitors**

All visitors will be required to verify their identity to the satisfaction of staff and to leave their belongings, including their mobile phone(s), in a safe place during their visit.

If the visitor is unknown to the setting, we will check their credentials and reason for visiting before allowing them to enter the setting. Visitors should be ready to produce identification.

Visitors are expected to sign the visitors' book and wear a visitor's badge.

Visitors to the school who are visiting for a professional purpose, such as educational psychologists and school improvement officers, will be asked to show photo ID and:

- Will be asked to show their DBS certificate, which will be checked alongside their photo ID; or
- The organisation sending the professional, such as the LA or educational psychology service, will provide prior written confirmation that an appropriate level of DBS check has been carried out

All other visitors, including visiting speakers, will be accompanied by a member of staff at all times. We will not invite into the school any speaker who is known to disseminate extremist views, and will

carry out appropriate checks to ensure that any individual or organisation using school facilities is not seeking to disseminate extremist views or radicalise pupils or staff.

## **Non-collection of children**

Most students at Deptford Green School are not collected by parents, they make their own journey to and from school. The school procedures covering the collection of pupils at the end of school are to ensure children are safe and in the care of the parent or an authorised adult as soon as possible after their school day finishes. The school must have the full contact details of parents/carers and other adults [such as grandparents] authorised by the parent/carer to collect their child. It is the parent/carer's responsibility to ensure contact details are up to date and that they have sufficient authorised adults for a range of emergencies.

The responsibility is on parents/carers to complete these arrangements every day, including the responsibility to make their own arrangements with their named authorised adult to collect their child/children if they are going to be late for any reason.

In the event of an emergency the school expects the parent/carer to make appropriate arrangements so the child/children are collected by 3.30pm by an authorised adult. It should be a rare occasion when there is a need to call the school to inform them that a child/children will be collected late.

## **Health and Safety**

Our Health and Safety policy, set out in a separate document, is reviewed annually by the governing body. It reflects the consideration we give to the protection of our children both within the school environment and when away from the school when undertaking school trips and visits.

## **Attendance**

Our policy on attendance is set out in a separate document and is reviewed annually by the governing body. Deptford Green School recognises that poor attendance can be an indicator that a child is experiencing abuse. The attendance officer (NAME) and senior leadership team monitor attendance weekly and report concerns to the Attendance & Welfare Officer at regular meetings.

## **E-Safety and Digital Safeguarding**

(See separate policy – Online Safety Policy, Acceptable use of the Internet Policy and Behaviour for Learning Policy for Use of Mobile Phones).

We ensure pupils at Deptford Green School are protected while using digital technologies at the school. The school is committed to including digital technologies, in particular, internet use, in our curriculum. In so doing we recognise the inherent risks posed by this useful learning tool. Full compliance with the school Digital Safeguarding policy will mitigate these risks and help to ensure pupils are safe online.

## **Anti-Bullying Policy**

Our policies on anti-bullying and cyber-bullying are set out in separate documents and are reviewed annually by the governing body. We expect staff to acknowledge that to allow or condone bullying, constitutes a lack of duty of care, which may lead to consideration under child protection procedures.

Both policies are written in line with advice and statutory guidelines set out in the DfE guidance *Preventing Bullying*, in July 2017 and *Approaches to Preventing and Tackling Bullying*, June 2018.

### **Physical Intervention Policy**

At Deptford Green School we acknowledge that staff must only ever use physical intervention as a last resort, and that at all times it must be the minimum force necessary to prevent injury to themselves, another person or property. Individual Risk Assessments are completed for particular pupils who have a higher likelihood of needing physical intervention.

### **School Visits**

We have clear protocols in place to ensure the safety of children whilst on school trips (see visits and trips policy). These include:

- Visit procedures to be documented by staff and agreed with the Educational Visits Coordinator (all members of SLT will complete EVC training with Wide Horizons or other regulated provider of EVC training).
- A briefing for parents going on the trips including detailed information about complying with safeguarding responsibilities and what to do if a child discloses to them
- Defined roles and responsibilities for school staff
- Risk assessments
- DBS/barred list checks for parents/carers where appropriate

### **Looked After Children**

Our Headteacher and our Designated Teacher (**DT**) Amy Coffey are responsible for Looked After Children and ensure that appropriate staff have the information they need in relation to a child's looked after legal status and contact arrangements with birth parents or those with parental responsibility. The Headteacher and the Inclusion Leader also have information about the child's care arrangements and the levels of authority delegated to the carer by the authority looking after him/her.

The **DT** for Looked After Children has details of the child's social worker and the name of the virtual school head in the authority that looks after the child.

The Chair is the designated Governor for Looked After Children (**CLA**).

### **Fabricated Induced Illness**

Fabricated or induced illness (FI) is a rare form of child abuse. It occurs when a parent or carer, usually the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child.

FI is also known as 'Munchausen's syndrome by proxy' (not to be confused with [Munchausen's syndrome](#), where a person pretends to be ill or causes illness or injury to themselves).

FI covers a wide range of symptoms and behaviours involving parents seeking healthcare for a child. This ranges from extreme neglect (failing to seek medical care) to induced illness.

Behaviours in FII include a parent or other carer who:

- persuades healthcare professionals that their child is ill when they're perfectly healthy
- exaggerates or lies about their child's symptoms
- manipulates test results to suggest the presence of illness – for example, by putting glucose in urine samples to suggest the child has diabetes
- deliberately induces symptoms of illness – for example, by poisoning her child with unnecessary medication or other substances

If you suspect that a parent/carer may be fabricating or inducing illness in their child, you should not confront them directly. It's unlikely to make the person admit to wrongdoing, and it may give them the opportunity to dispose of any evidence of abuse. You must immediately report any concerns to the DSL using the concerns form.

Please see further guidance on the DfE website via the link below:

[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/277314/Safeguarding\\_Children\\_in\\_whom\\_illness\\_is\\_fabricated\\_or\\_induced.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/277314/Safeguarding_Children_in_whom_illness_is_fabricated_or_induced.pdf)

## **Private Fostering**

A private fostering arrangement is one that is made privately (without the involvement of a local authority) for the care of a child under the age of 16 years (under 18, if disabled) by someone other than a parent or close relative, in their own home, with the intention that it should last for 28 days or more. (Please refer to the Private Fostering Policy for more details).

A close family relative is defined as a 'grandparent, brother, sister, uncle or aunt' and includes half-siblings and step-parents; it does not include great-aunts or uncles, great grandparents or cousins.

Parents and private foster carers both have a legal duty to inform the relevant local authority at least six weeks before the arrangement is due to start; not to do so is a criminal offence.

Whilst most privately fostered children are appropriately supported and looked after, they are a potentially vulnerable group who should be monitored by the local authority, particularly when the child has come from another country. In some cases privately fostered children are affected by abuse and neglect, or be involved in trafficking, child sexual exploitation or modern-day slavery.

Schools have a mandatory duty to report to the local authority where they are aware or suspect that a child is subject to a private fostering arrangement. Although schools have a duty to inform the local authority, there is no duty for anyone, including the private foster carer or social workers to inform the school. However, it should be clear to the school who has parental responsibility.

School staff should notify the DSL when they become aware of private fostering arrangements. The designated safeguarding lead will speak to the family of the child involved to check that they are aware of their duty to inform the LA. The school itself has a duty to inform the local authority of the private fostering arrangements.

A referral should be made to Children's Social Care in writing using Lewisham's referral form. The referral should have as much information as possible, including full details of all children concerned and their parents/carers/those with PR and any information about how these children came to be in their current situation. In some cases you may not have been provided with all the details so it is

important that you discuss the referral with the carers in order to obtain them. However, if the information is not forthcoming, the referral should not be delayed. Referrals should be made online at: [www.lewisham.gov.uk/MASH](http://www.lewisham.gov.uk/MASH).

Once notified about a private fostering arrangement, the local authority is required to assess the home to ensure that is suitable. If it is happy with the arrangements, then it is required to arrange a visit once every six weeks for the first year and then at three-monthly intervals whilst the placement continues. Children's Social Care will be appointing a dedicated worker to work with private fostered children. Details will be provided as soon as possible. This worker will be available to offer advice and assistance if required.

## **Separated Parents**

The definition of a parent for school purposes is much wider than for any other situation. The Education Act 1996 defines a parent as:

- All natural parents, including those that are not married;
- Any person who has parental responsibility but is not a natural parent e.g. a legally appointed guardian or the Local Authority named in a Care Order;
- Any person who has care of a child i.e. a person with whom the child resides and who looks after the child irrespective of the relationship

Who has "Parental Responsibility"? (The Children Act 1989)

Having parental responsibility means assuming all the rights, duties, powers, responsibilities and authority that a parent of a child has by law. People other than a child's natural parents can acquire parental responsibility through:

- Being granted a Residence Order
- Being appointed a Guardian
- Being named in an Emergency Protection Order (although parental responsibility in a such a case is limited to taking reasonable steps to safeguard or promote the child's welfare)
- Adopting a child.

If the parents of a child were not married to each other when the child was born, the mother automatically has parental responsibility; however, the father only has parental responsibility from 1st December 2003 and by jointly registering the birth of the child with the mother. He can, however, subsequently acquire parental responsibility by various legal means. [SCHOOL] must act in accordance with the law with respect to parental responsibility, and the school's duties and processes are clearly outlined in our "Separated Parents Policy".

## **Photography and Images**

To protect children we will:

- Seek parental consent for photographs to be taken or published (for example on our website or in newspapers and/or publications)
- Only use the school's equipment
- Only take photos and videos of children to celebrate achievement
- Use only the child's first name with an image

- Ensure that the children are appropriately dressed
- Encourage children to tell us if they are worried about any photographs that are taken of them

Parents that are taking photographs at school assemblies and other productions or school trips are instructed that these are to be for personal use only and are not to be shared on social media.

Commissioned Extended School Provision and Lettings

Section 11 of the Children Act 2004 places duties on a range of organisations and individuals to ensure their functions, and any other services that they contract out to others, are discharged having regard to the need to safeguard and promote the welfare of children. **(Chapter 2 - Working Together 2018)**

In relation to extended school provision and lettings, these include:-

- A clear line of accountability for the commissioning and /or provision of services designed to safeguard and promote the welfare of children
- A designated professional lead for safeguarding
- Safe recruitment practices for individuals whom the organisation will permit to work regularly with children
- Clear policies, in line with those from the LSCP for dealing with allegations against people who work with children.

'Employers are responsible for ensuring that their staff are competent to carry out their responsibilities for safeguarding and promoting the welfare of children and creating an environment where staff feel able to raise concerns and feel supported in their safeguarding role.' Working Together 2018. Where any extended service is directly commissioned by Lewisham Council, they will be responsible for the safeguard

Where extended school provision is offered directly under the supervision or management of school staff, for example an after school sports club led by a member of school staff, the school's safeguarding arrangements will apply.

Where services or activities are provided separately by another body, the Governing Body should seek assurance that the body concerned has **appropriate policies and procedures in place** in regard to safeguarding children and child protection and there are arrangements to liaise with the school on these matters where appropriate.

Schools and colleges should have arrangements in place with extended school providers and contractors to make sure that anyone who will be coming onto school site and working with children has been subject to the appropriate level of DBS check and safer recruitment processes.

## 6.15 Faith Based Abuse

Faith abuse is abuse of a child, linked to faith or belief. It is not about challenging people's beliefs, but where these beliefs lead to abuse, this should never be tolerated. This includes: belief in concepts of witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs), the evil eye or djinns (traditionally known

in some Islamic faith contexts) and dakini (in the Hindu context); ritual or multi murders where the killing of children is believed to bring supernatural benefits or the use of their body parts is believed to produce potent magical remedies; and use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation. This is not an exhaustive list and there will be other examples where children have been harmed when adults think that their actions have brought bad fortune, such as telephoning a wrong number which is believed by some to allow malevolent spirits to enter the home.

In Deptford Green School, we have provided all staff, as part of our safeguarding training, information about potential signs and indicators of faith based abuse.

In working to identify such child [abuse](#) it is important to remember every child is different. Some children may display a combination of indicators of [abuse](#) whilst others will attempt to conceal them. In addition to the factors above, there are a range of common features across identified cases. These indicators of [abuse](#), which may also be common features in other kinds of [abuse](#), include:

- a child's body showing signs or marks, such as bruises or burns, from [physical abuse](#)
- a child becoming noticeably confused, withdrawn, disorientated or isolated and appearing alone amongst other children;
- a child's personal care deteriorating, for example through a loss of weight, being hungry, turning up to school without food or lunch money, or being unkempt with dirty clothes and even faeces smeared on to them;
- it may be directly evident that the child's parent or carer does not show concern for or have a close bond with the child;
- a child's attendance at school becoming irregular or the child being taken out of school altogether without another school place having been organised, or a deterioration in a child's performance at school;
- a child reporting that they are or have been accused of being 'evil', and/or that they are having the 'devil beaten out of them'.

All staff should be alert to the indicators above and should be able to identify children at risk of this type of [abuse](#) and intervene to prevent it.

Following the potential identification, confirmation or disclosure of faith abuse by a child/young person/family member to an adult in school, the following actions will be considered:

- Standard child safeguarding procedures apply and must always be followed in all cases where abuse or neglect is suspected including those that may be related to particular belief systems
- A MASH referral may be necessary in order to safeguard the child/young person (see below for contact details)
- An Early Help Assessment may be appropriate for some children and young people in order to meet need

## **Exclusions**

Decisions to exclude a child are not taken lightly and the final decision will always be made by the Headteacher. In line with the recent DfE statutory guidance, 'Exclusion from maintained schools, academies and pupil referral units in England', September 2017, when the school is considering excluding, either fixed term or permanently, a vulnerable pupil and / or a pupil/student who is the

subject of a child protection plan or where there is an existing child protection file, we will call a multi-agency risk-assessment meeting prior to making the decision to exclude. In the event of a one-off serious incident resulting in an immediate decision to exclude, the risk assessment *must* be completed prior to convening a meeting of the Governing Body.

### **Searching Screening and Confiscation**

The DfE advisory guidance, Searching, screening and confiscation guidance for Headteachers, school staff and governing bodies' sets out the power schools have when searching pupils, both with or without consent, and their right to confiscate items found during the searches.

At Deptford Green School there are times that we routinely screen students for safeguarding reasons while on other occasions it may be necessary to conduct searches more randomly. Any such searches/screening will always be done in accordance with advisory guidance and full details of our school's approach are detailed in our Behaviour for Learning policy.

### **Serious Youth Violence and Knife Crime**

In line with the recommendations that came out of the recent [DfE report, Safeguarding children and young people in education from knife crime, March 2019](#) which summarises their findings and recommendations from a research project in London on knife crime in education we will carry out routine screening and searches as above.

In Lewisham a weekly Concerns Hub is held to discuss children at risk of being victims to this crime and we will follow the referral process to direct the relevant children accordingly by emailing PLMailbox-ConcernHub@met.police.uk.

### **Contextual Safeguarding**

Deptford Green School is aware that the young people in our school may face additional extra-familial risks outside of the school context. Working Together to Safeguard Children, 2018 states that, "These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online. These threats can take a variety of different forms and children can be vulnerable to multiple threats, including:

- exploitation by criminal gangs and organised crime groups such as county lines;
- trafficking;
- online abuse;
- teenage relationship abuse;
- sexual exploitation and
- the influences of extremism leading to radicalisation,".

As part our whole-school approach to these contextual safeguarding risks, we have developed a curriculum, policy and practice that promotes a culture that focuses on educating about risks and potential threats as well as responding to these. In addition to this, Deptford Green School will regularly use student-led intelligence to identify potential risks in and outside of our community and mitigate against them through regular safety mapping exercises.

Where safety mapping exercises identify people, places and environments where extra-familial harm could take place, we will focus on interventions that address these wider environmental factors by partnering with other professionals, external agencies and community establishments to create more safe spaces for our young people.

We will train colleagues to understand how to identify these potential contextual safeguarding risks/threats and refer any new concerns in the normal way.

Schools have been identified as sites in which young people can experience and/or be safeguarded from abuse and violence. From experiences of sexual harassment and sexual violence through to physical assaults, relationship-based abuse, bullying and grooming into exploitative networks, young people have told practitioners, researchers and journalists about risks they have faced in educational settings.

As such it is critical that when young people experience abuse and violence and this is in some way associated to their school environment or school relationships – that the school itself features within the process of assessment and intervention. If we want to address the factors that cause abuse, or provide an opportunity for abuse to occur, then these factors need to be identified, explored and addressed – and school assessments is one way to achieve this.

School assessments uncover risks and strengths within school contexts, that are associated to young people's experiences of abuse.

A school assessment draws on aspects of the environment to build a picture of how the school can be safer for young people. A range of methods will be used to gather this information including:

- Speaking to young people
- Student and parent surveys
- Speaking with staff
- Reviewing behaviour logs
- Observing the school environment

At Deptford Green School we take contextual safeguarding very seriously. If colleagues have concerns or become aware of circumstances within school where young people are currently experiencing or are at risk of harm, please report to the DSL using the concerns form. A decision will then be made by the Senior Leadership Team about the potential need to carry out a school assessment.
